MAYOR

CITY CLERK

As to your specific recommendations, the Council and I would offer the following comments:

(a) The City Council has held a joint meeting with the Model Cities Commission on Wednesday, April 29, 1970, to discuss the progress of the planning year to date. It is recognized that additional consultation must be effectuated to prepare a final plan worthy of approval by your office. In order to do so, I have directed the City Manager to form a special task force comprised of himself, Mr. Neal Hanks, Executive Director of the Redevelopment Commission and the Metropolitan Planning Board, Mr. Ernest Ward, Finance Director of the City, and Mr. Kenneth Michalove, Executive Director of the Buncombe County Planning Council, to work with the Model Cities Director and staff on a continuing basis. This working relationship will include preliminary review of all work elements of the final comprehensive plan including budget analysis and project design. Additionally, the task force will serve to revise the mid-year planning statement for inclusion in the final document.

We have also designated Mayor pro tem Webster Anderson to serve as Council liaison to the Model Cities Commission during the remainder of the planning year. General Anderson will attend all Model Cities Commission meetings and will keep the Council fully informed of the on-going activities. Further, he shall meet with the task force as requested by the City Manager.

(b) The City feels that this interim arrangement for the remainder of the planning year will insure an improvement in planning, co-ordination and general understanding of the program by all concerned.

(c) The City at present has under way a thorough study for the reorganization of its program planning, redevelopment, housing and related activities. This study includes an analysis of the future organizational and administrative structure of the Model Cities program.

It is anticipated that the Model Cities staff activities will become a part of the administrative structure of the City and serve directly under and in a staff capacity to the office of the City Manager.

The administrative component of the final plan will reflect this change of staff relationship.

Further, the ordinance establishing the Model Cities Commission will be extensively revised to provide direct legal relationships between the Model Cities Commission and the City Council on policy matters related to future planning and the operation of the programs during the first action year.

The Council and I feel that this interim arrangement and the restructuring of the administrative organization in the proposed plan for the action year will meet the requirements of CDA letter #10A. It is felt that an orderly conclusion of the planning year demands that no extensive legal reorganization take place at this time if we are to complete the comprehensive plan in the time allowed and with the funds available.

I would be most happy to discuss this matter with you further if additional detail is needed. Members of the city staff and Council have conveyed these intentions to Mr. Don Harrison, and he may fill you in on additional details that you may need.

The City of Asheville intends to complete its planning year and a comprehensive proposal that will insure the citizens of the Model neighborhood area of an effective program that will meet their objectives in improving the quality of life in the model

spent in court, a uniform maintenance allowance, longevity pay, and more and better uniforms and equipment for use in civil disturbances and crowd control.

Sgt. Don Poore also spoke in behalf of the petition.

There was a discussion by Council members, and the Mayor thanked Mr. Riddle for his presentation, and assured him that this matter will be taken into consideration when the budget is studied.

CIVIC CENTER - CONSTRUCTION CONTRACT

The City Manager reported to the Council that this morning members of the Advisory Building Committee, representatives of the architects and some staff members met and the following alternatives have been formulated:

1. Let contracts (estimated cost $4,605,000) for arena-convention area without air conditioning, without seating, and auditorium renovation with seating. No reservation of funds for community theater, no lobby (already spent approximately $640,000).

2. Let contract for arena area for about $4,300,000 and lobby about $448,000 totaling $4,748,000 with no auditorium renovation. Provides no civic arts performing or museum space, and probably violates original bond intent.

3. Let no contract. Pay off $1,000,000 bond anticipation note, $640,000 to expense already paid, about $322,000 to architect, balance to debt service. Raise cash or non-cash credits due urban renewal contracts for $1,450,000. Offer Heart of Asheville property for sale and condemn auditorium.

4. Let arena contract alone for $4,3 million (have available only $3,4 million without civic arts funds). Provides no auditorium renovation, no civic arts or museum space, no seating, no air conditioning, and no lobby.

5. Award Basic arena contract, including negotiated changes (about $4.3 million) and reserve the right to award remainder on present bids for 120 days if additional funds are available; if not, use alternative 1 above.

6. Reject all bids and instruct Building Committee and architect to redesign civic center within available funds. This results in probable loss of most of architectural and engineering fees already paid or owed and costs of additional such fees for redesigned facility.

Mr. Robert Terrell reported to the Council that his committee recommended the acceptance of Alternative 5.

There was a discussion by Council members, and Councilman Anderson moved that Alternative 1, let contracts for arena-convention area without air conditioning, without seating, and auditorium renovation with seating, no reservation of funds for community theater, no lobby, be accepted by the Council and the Mayor be authorized to enter into contracts covering this work, which motion was seconded by Councilman Crouch.

(The Municipal Finance Act at the time of said election on December 5, 1967 contained a maximum interest rate limitation applicable to said bonds of six per centum (6%) per annum; it was later amended to provide that bonds issued thereunder should bear interest at such rate or rates as the governing body of the municipality shall determine. A failure on the part of the voters to approve said ordinance of April 9, 1970 shall not affect the authority of the City to issue said Civic Arts Center Bonds, bearing interest not in excess of six per centum (6%) per annum as authorized by the ordinance of October 19, 1967), and 4362 votes were cast against said ordinance, and that a majority of the qualified voters of said City who voted thereon at said election voted against said ordinance.

tions were made, including raising the industrial water rates, and read said recommendations. The City Manager further advised that on February 25, 1958 Mr. Weldon Weir, the former City Manager, addressed a letter to Mr. E. M. Burnett, Chief Engineer of Gerber Products Company, guaranteeing water rate of $675.19 for all water used up to the first 3,000,000 gallons, and for all water used over 3,000,000 gallons a rate of 5¢ per thousand gallons for a period of twenty-five years, and that in 1966 when the city revised rates for industrial users the rate to Gerber was modified to the rate of $936.35 up to 3,000,000 gallons and 4½¢ per thousand gallons for all water used over 3,000,000 gallons. The City Manager stated that in view of the Hazen & Sawyer recommendations the Council is faced with a policy decision.

Mr. Joe Hunter on behalf of the Greater Asheville Council presented a resolution passed by the Greater Asheville Council urging the City Council to continue its adherence to the aforementioned commitment to the Gerber Products Company, as modified, until its expiration date as expressed in the letter.

Other speakers in this behalf were Frank Coxe, Harry Clark and T. A. Uzzell.

Councilman Anderson moved that the ordinances or resolutions passed concerning the special Gerber water rates be rescinded in proper legal form, and that the Council return to the original agreement by Mr. Weir made with Gerber Products Company on February 25, 1958; that the water rate for the first 3,000,000 gallons per month be returned to $675.19, and that everything in excess of 3,000,000 gallons per month be charged at the rate of 5¢ per thousand gallons, these rates to remain in effect for a minimum of twenty-five years from February 25, 1958. And further moved that the rate of 5¢ per thousand gallons apply to the maximum water requirements set out in the attachment to the letter of February 25, 1958 by the Gerber Company, and that quantities above that maximum water requirement be charged at a rate which the Council may adopt for all industrial users. Further, it is assumed that the ultimate figure in the attachment, 225,000,000 gallons, would be attained 25 years after the effective date of the letter of February 25, 1958. The maximum water requirements between 1970 of 173,000,000 gallons and the ultimate of 225,000,000 gallons would be obtained by drawing a straight line graph over the thirteen year period. The 5¢ rate would apply to all water used below that graph, the new industrial rates to all water used above that graph. This motion was seconded by Councilman Dailey.

No action was taken on the motion.

The Corporation Counsel was requested to draw the proper legal document to comply with the above motion to be presented to the Council in two weeks.

5. Consideration of a report from the Metropolitan Planning Staff concerning the economic feasibility of annexing the Grimes property on Leicester Highway.

The City Manager read the report and the cost-benefit charts and stated that it would appear that it would be best for annexation to occur after development or for annexation not to occur at all, and the City Manager stated further that he would definitely recommend that the Council take no action now, due to the fact that the N. C. Supreme Court ruling on the sales tax has put the city's economic position in jeopardy.

Following a discussion, Councilman Atkinson moved that this matter be tabled, which motion was seconded by Councilman Colton and unanimously adopted.

The City Manager stated he wanted to assure the public that there is no justification for public alarm; that the city was not in any danger of epidemics and there is no reason to fear utilizing the water, particularly at this time of year.

Mr. Lawrence Burwell, the County's assistant health director, said surveys of the water over the last few years have shown a periodic presence of the bacterial problem in the summer and early fall, and that there have been no positive bacteria counts in the last three months.

1% LOCAL OPTION SALES TAX
DECLARED UNCONSTITUTIONAL

The City Manager discussed the recent Supreme Court Decision which declared unconstitutional the 1% local option sales tax, advising that the city's 1970-71 budget anticipated sales tax revenues of $733,000 and to date $320,668.97 of this amount has been received.

A discussion followed as to alternative forms of revenue sources. It was brought out by Councilman Colton that city officials should begin immediately to devise methods of cutting expenses in the latter half of the fiscal year, especially if the Attorney General were to rule that sales tax which has already been collected will not be distributed.

BEAUCATCHER TUNNEL - PROPOSAL OF SECOND TWO-LANE TUNNEL

Councilman Anderson made the following statement and motion:

Recently I proposed that we reduce the cost at Beaucatcher by constructing only one new three-lane tunnel for traffic in one direction while revamping the old or present tunnel for traffic in the other direction. However, the Highway Commission states that the present tunnel cannot be converted to carry three lanes of traffic.

If this is the case, then let us have two two-lane tunnels: a new one and the present one. A six-lane highway as now planned will carry more traffic than has ever been projected for Beaucatcher. The traffic count growth projected for 40 years shows about 50,000 cars a day. Another study shows that 20%-30% of this traffic will use I-40 when completed. So in the year 2010 we can expect perhaps 40,000 cars a day to transit Beaucatcher Mountain.

The Holland Tunnel in New York has two lanes in each direction. It carries 63,000 cars a day. So it is obvious that the Highway Commission has grossly overdesigned this vital link in our traffic system.

Therefore, let us eliminate all the expensive ideas, cut off the interminable delay and get on with the job of giving us everything our grandchildren will ever need -- a new two-lane tunnel.

In furtherance of this I propose this motion:

WHEREAS, the studies of the Beaucatcher traffic solution at State and Federal levels may continue indefinitely with no assurance of the possible outcome - i.e. a six-lane cut or two three-lane tunnels; and

WHEREAS, either alternative will handle far more traffic than can be reasonably anticipated for the next forty years; and

WHEREAS, the anticipated traffic can be handled in two two-lane tunnels; and

WHEREAS, the City of Asheville, Buncombe County, and indeed all of Western North Carolina need urgently the most expeditious solution to the worst traffic situation in the state.

NOW, THEREFORE, I move that this City Council request the necessary studies and public hearings on a third alternative, i. e. construct one new two-lane tunnel for traffic in one direction and use the existing tunnel--refurbished as necessary, for the opposite direction.

This motion was seconded by Councilman Keleher, and the matter was discussed by the council.

Following the discussion a vote was taken on the motion and it passed by a vote of four to three with Councilmen Keleher, Anderson, Atkinson and Mayor Montgomery voting in favor of the motion, and Councilmen Colton, Crouch and Dailey voting against themotion.

ORDINANCE NO. 705 - AN ORDINANCE DIRECTING THE HOUSING OFFICER TO DEMOLISH THOSE HOUSES KNOWN AS 9, 11, 15 and 17 BLAYLOCK AVENUE, 84 BOYD STREET, 61 BUFFALO STREET, 18 CLUB STREET, 185 FAYETTEVILLE STREET, 91 GAY STREET, 2, 4, 6, 7, 8, 9, 10 and 11 SHORT GUDGER STREET, 51 and 55 GUDGER STREET, 1331 HAYWOOD ROAD, 7 and 9 JANE STREET, 169 PARK AVENUE, 59 and 63 PACK SQUARE, 247 PATTON AVENUE, 287 PEARSON DRIVE, 76 RALPH STREET, 42 and 44 VELVET STREET, 119 WANOCA STREET, 26 and 139 WEAVER STREET, and 35 WHITE AVENUE.

4. Third reading of Ordinance No. 705, directing Housing Officer to demolish certain houses.

Mr. Max Polansky spoke in regard to 247 Patton Avenue. He stated that the Building Inspector and Fire Department had agreed to burn this building with his consent but had failed to do so. It was his feeling that the City should demolish the building without cost. It was explained to him by the Building Inspector and the City Manager that the practice of demolition by burning had been discontinued because of the smoke abatement restrictions.

At this time it was revealed that even though 247 Patton Avenue was listed in the title of the ordinance it was not referred to in the full contents.

status of our Civic Center Project. Since the Supreme Court decision this spring there have been several problems encountered - the relocation of certain water, gas and electric lines, and the relocation of Hiawassee Street. The fact that the City had to re-let the bids for the mechanical contract for heating, air conditioning, plumbing and electrical contracts. Also, there have been discussions and negotiations with Ranger Construction Company relative to various claims which Ranger has filed with the City, in which Ranger has taken the position that certain costs which they have incurred by reason of delays in the project during the litigation and also since that time, were the responsibility of the city. Some time ago the officials of Ranger Construction Company submitted to the City a claim, which was submitted to the architect, and who forwarded it to the City for their review. The various documented claims totaled $292,796.77. We have had a number of dicussions and meetings with the officials of Ranger Construction Company. I think everyone involved has been interested in seeing the project continue and we have been working as best we could to resolve this problem. As a result, negotiations and decisions arrived at yesterday in a meeting with Ranger Construction Company, officials of the City, including myself and the City Manager, a settlement of this matter has been made. The settlement has been agreed to and executed by Ranger and is now before the City Council today for its approval. If it is approved I will sign contracts with modifications and a release, which will settle the matter and which will permit construction to recommence. Also, if Council approves this action we will this afternoon execute the contracts with Moser Plumbing Company and M. B. Haynes Electric Company for the heating, air conditioning, plumbing and electrical work. The terms of this settlement, which will be made fully public and of which the press has already been furnished copies, was basically that the City of Asheville will make a payment to Ranger Construction Company in the amount of $205,000. $60,000 of this will be paid in cash immediately and the remaining balance of $145,000 will be paid over a 15 month period in equal payments beginning September 15, 1971. The officials of the City who negotiated this settlement have had extensive conferences with the architect for the project and with the City Center Building Committee, of which Mr. Paul Goodman is the chairman. Both of these groups have recommended that this settlement be entered into. In order to make this settlement possible, it has been necessary to delete certain items which were not in the contract entered into in the spring of 1970. A substantial number of these deletions have been made from the contract with Ranger Construction Company itself, the general contractor. These deletions total some $243,320. We have also made deletions in the contracts which were previously submitted by Moser and M. B. Haynes.

The City Manager then read the resolution and upon motion of Vice Mayor Marshall, seconded by Councilman Colton, it was unanimously adopted.

Councilman Ochsenreiter stated that he would like the record to show the Council's appreciation to Mr. Paul Goodman and members of the Civic Center Advisory Committee, as well as the City Manager and other City Officials, for their fine efforts in bringing about this final settlement with Ranger Construction Company. He felt that through their efforts Asheville would realize this much needed Civic Center facility.

Mr. Phillip G. Carson, local attorney, spoke and stated he was not opposed to the resolution in principal but he questioned various provisions of the resolution. He said it was not clear on whether each salesman in a crew of five or ten must buy a $50.00 permit, on the 24-hour "waiting period", before operations may begin, and on whether new permits would be required each time a sales crew came into Asheville. He warned that these should be cleared up and asked that action be deferred.

the complex as then conceived only in broad outline;

(3) In 1968, in order to qualify as a $1.5 million credit toward the City's share of the cost of the Civic Redevelopment Urban Renewal Project, the proposed facilities had to be located within 1/4 mile of one of our urban renewal projects. Otherwise, other public improvements would have to be made in the area or additional urban renewal bonds be authorized and issued;

(4) In 1968 and 1969, land adjacent to the present City Auditorium, which is within 1/4 mile of the Civic Redevelopment Project, was purchased by the City as the site for the "convention center";

(5) Due to steadily increasing construction costs, it became apparent by 1969 that the funds authorized in 1967 would not permit completion of a separate "convention center" and "civic arts center";

(6) After extensive consultations with a number of civic groups, the then - new City Council, which had been elected in May of 1969, decided to "merge" the two facilities by making extensive renovations to the City Auditorium and adding facilities for use by cultural groups to both the City Auditorium and the modified "convention center." This merged facility came to be known as the "Civic Center.";

(7) In the supplementary bond referendum held on May 26, 1970, our voters, by a narrow margin, did not approve a supplemental bond issue of $2 million for the combined Civic Center;

(8) On May 27, 1970, the City Council authorized the signing of contracts within the funds remaining from the 1967 bond issue. The general contract was executed and construction of the Civic Center was begun. It was acknowledged publicly by the City Council at the time that the funds available would not permit completion of the facility. Therefore, contracts for a new lobby, seating and air conditioning were not awarded;

(9) On June 17, 1970, a lawsuit was instituted which contended that the merged Civic Center violated the intent and purpose for which the 1967 bond issues were authorized and sought to prevent construction of the Civic Center. On April 15, 1971, the North Carolina Supreme Court affirmed an earlier dismissal of this action;

September 30, 1971

POLICY STATEMENT BY ASHEVILLE CITY COUNCIL ON CIVIC CENTER PROJECT

Your City Council is today beginning the steps necessary to hold a referendum on Tuesday, December 14, 1971, in which our voters will be asked to approve the City of Asheville issuing up to $3 million in general obligation bonds for the purpose of completing the Civic Center presently under construction and additional facilities related to that project.

Your Council has devoted many hours of individual and collective thought, study and effort to determining what should be done concerning the Civic Center project. No other matter has been given more attention by us than has the process of deciding the best course of action to follow on this project. This has been done for two reasons. First, the Civic Center project or any modification of it which might have proven feasible involves substantial sums of money - your money as citizens of this community. Your Council has worked diligently to make the funds available to the City for providing municipal services go just as far as possible and be spent as wisely as possible. We feel that this is one of our most important responsibilities. Secondly, we have approached a decision on this matter with full awareness and appreciation of the fact that the project has been surrounded with controversy since its inception. We feel that it is of great importance to the unity and civic pride of our City that these differences of opinion be laid to rest and that all segments of our community start working together again in order for us as a community to prepare to meet the years of challenge and opportunity which lie ahead.

After this Council was elected in May of this year, we quickly found that any decisions we might make had to be made in light of the following hard, irreversible facts:

(1) This project was originally conceived in the mid-1960's as two separate facilities - a "convention center" which would function as an exhibition hall and arena for large gatherings such as athletic events, and a "civic arts center" with a small theatre and facilities for the various cultural organizations in our community;

(2) The 1967 bond referendum had approved, by a substantial margin, the issuance of $5.3 million in bonds to construct

Additional construction contracts were authorized by Council on that date. Settlement of the general contractor's claims were negotiated and this settlement, in the amount of $205 thousand, was approved by Council on July 22. The additional construction contracts were awarded on July 29. Work resumed on the site in early August and is proceeding on schedule.

When the settlement was announced, your Council also stated unequivocally that it was committed to the completion of a "first class" Civic Center. All of our citizens would certainly agree that it would be folly to spend the balance of the funds already allocated to this project and end up with a facility which would be unusable for many of its intended purposes. Therefore, your Council also announced that careful study was underway to determine what alternative means might be available to finance the completion of the project. Despite pressures to speed up this process, your Council has explored with deliberation all the alternatives open to us. Many discussions have been had with our architectural, construction and financial advisors. Interested citizens and civic groups have offered suggestions and these viewpoints also have been fully considered.

We have concluded that our voters should be asked to approve up to $3 million in supplemental bonds for completion of the Civic Center as planned, plus additional facilities and improvements. A referendum for this purpose will be held on December 14, 1971. The reason for selecting this early date is that the City has the right to re-insert into its contract with the general contractor a number of items which have been omitted due to lack of funds at a guaranteed price prior to May 15, 1972, but many of these items must be added to the contract at an earlier date in order not to impede the orderly progress of the job.

Our current estimate of the cost to complete the new Civic Center and to remodel the City Auditorium in accordance with the 1969 plans is approximately $2.5 million. However, the architect's estimate does not include the furnishings and equipment essential to make the facilities useful for our citizens and again attract many major conventions to Asheville. We feel it is important to have some funds available to construct access ramps from adjacent parking areas and to cooperate with private enterprise in the development of such facilities. Finally, additional improvements should be made in the area of the Civic Center, such as landscaping, refurbishing the rear of the City Auditorium and relocating utility lines, in order that the area will be an even greater asset to our community when completed.

We therefore are asking the voters to approve the issuance of up to $3 million in bonds. We wish to emphasize that these bonds will

(10) Various delays were encountered in getting construction of the Civic Center underway again and on May 19, 1971, the general contractor for the project filed claims against the City for costs arising from delay totaling over $292 thousand. The City had no funds to pay the contractor for work already performed and the contractor was threatening to walk off the job;

(11) One million dollars in bond anticipation notes sold by the City were due from the bond sale. The only funds available to the City to meet this indebtedness would be from the sale of the bonds authorized in 1967, but which had not been issued and sold. The proceedings leading to issuance of these bonds had been initiated by the City Council on April 30, 1971, and the bids were to be received on June 8, 1971. Issuance of municipal bonds in our State is strictly regulated by the Local Government Commission. The Commission would have been most reluctant to permit sale and issuance of the bonds if the City Council had decided to discontinue the project.

We recite this background not for the purpose of again stirring up old debates and controversies. We do it not to suggest that any of these steps should or should not have been made. Our purpose, rather, is to point out that our decisions have, by necessity, been made with these facts in mind.

Faced with the foregoing facts, your City Council reached the unanimous conclusion that the Civic Center, as planned in 1969 and on which construction had already begun, should be completed. Too much of our City's money - over $1 million-had already been invested. In addition, Urban Renewal credits of about $1.5 million would have been lost unless alternative public improvements were made on a large scale, which had never been deemed feasible. The City would have been in a financial crisis surpassed only by the Depression Years of the 1930's if the bonds were not issued and the City's bond anticipation obligations satisfied. To have unilaterally cancelled the general construction contract already awarded would have led to further disputes with the contractor. To have again radically altered the concept of the proposed facility would have most certainly resulted in further division of our community and the prospect of further litigation.

Accordingly, your Council decided to proceed with the sale of the bonds, payment of the City's indebtedness, awarding of additional contracts and settlement of the claims of the general contractor. Very favorable bids for the bonds were received and accepted on June 8.

question, rather, will be the extent and quality of the facilities to be constructed.

Adequacy of parking, the other concern of our voters last year and of your Council now, has not been fully resolved at this point. However, we firmly believe that your City and private enterprise can cooperate in the development of parking facilities which will be of significant benefit to the Civic Center and our entire downtown area as well.

We believe that our citizens are entitled to know the full facts on this matter and the alternatives presently available to us as a community. We have carefully studied the possible ways of reducing the scope of this project presently under construction, in order to have a facility which would be usable from its opening, although without many of the improvements in the "first class" and complete Civic Center complex as described above. This scaled-down facility would consist of (1) the exhibition hall and arena facility, which would be functional but without any air conditioning, elevator facilities and some staging equipment and (2) the remodeling of the lower level of the existing City Auditorium for better use as a cultural exhibition facility. The remodeling of the upper level of the City Auditorium and the construction of a connecting lobby between the facilities would be eliminated. Approximately $1.4 million in additional funds would be necessary to complete these reduced facilities. These funds could not, by law, be derived from tax revenues. Interest on the 1967 bond proceeds and the leasing on a short-term basis of some of the equipment in the facility, such as seating, could be utilized to finance a portion of these scaled-down improvements. In addition, non-tax revenues of the City could be applied to the project. However, the application of such funds to the completion of this project would divert their use from other purposes. This would necessitate a reduction in the level of services of the City to its citizens while these funds were being applied to the project. Alternatively, if present levels of such service were to be maintained, increases in the ad valorem tax rate would be required during the period of construction and for several years beyond. Our best present estimate is that an increase in the ad valorem tax rate of about 12 cents per hundred dollars, or approximately 10 per cent, would be necessary over the next four or five fiscal years to maintain present service levels. We are the first to recognize that this alternative is not an attractive one, but we have concluded, after long consideration, that it is the only feasible alternative to supplemental bond funds open to our community and this Council. Having reached this conclusion, we feel that it is our obligation to make our citizens fully aware of our views.

The Civic Center has had a long and troubled history. The debate over its contents and location has been extensive. Unfortunately,

be sold and the proceeds used only if absolutely necessary to accomplish the above purposes.

We feel that it is particularly necessary that our citizens be satisfied that adequate parking with reasonable walking distance will be available. We are confident that this will be the case. We are already aware of a number of private individuals who are interested in making definite plans to erect such facilities as soon as they can be assured that the Civic Center project will be completed. We will assist and cooperate with such individuals to the fullest. However, without assurance that the complete Civic Center complex will be a reality, reasonable businessmen cannot justify the investment required to construct such parking facilities.

We have carefully studied the effect that the issuance of these additional bonds will have on our City's debt service over the years. The general refunding obligations incurred by the City in the 1930's will be paid by 1976. Our peak year in debt service expense will occur in Fiscal Year 1972-73 and thereafter the payment level will reduce. Our present levy for debt service on non-utility bonds is 35 cents per hundred dollars of assessed value, or approximately 23 per cent of our total tax levy. Debt service on these existing bonds will necessitate an increase of 3 to 5 cents per hundred dollars of assessed value beginning in Fiscal Year 1972-73 and continuing at this level for several years. We believe that we can arrange a repayment schedule on the additional bonds which will permit their repayment without any further increase in our ad valorem tax rate applied to debt service.

Some will ask why your City Council has committed itself to completion of the Civic Center complex despite the fact that the voters, by a narrow margin, did not approve issuance of bonds for this purpose in 1970. We have reached this decision for the reasons stated above. Moreover, many people are of the opinion that the 1970 bond referendum was unsuccessful for two reasons - the location of the Civic Center complex, for which land had been purchased and plans drawn but construction had not begun, and the inadequate existing parking in the area.

Many voters, it is said, voted against the bond issue in the belief that they were voting against the proposed location of the facility and that the location would be changed if the bonds were not authorized. With the benefit of hindsight, it can be seen that this was not the case. The City Council then in office, by awarding the general construction contract after the unsuccessful referendum, removed all doubt thereafter that it would be economically feasible to relocate the project. Construction on the project has now been underway for over a year. Substantial funds have been spent during this period. The location of the Civic Center complex cannot, therefore, reasonably be at issue in the forthcoming bond referendum. The

Dr. Parker, Vice-President of the Civic Arts Council informed the Council that his group would like an opportunity to study the policy statement and change in plans before commenting on the policy. Mayor Wood assured him that the Council was prepared to meet with his group at any time.

Mr. E. R. McCarthy asked if the Council had considered the cost of operating the center after completion. He said he felt that all phases of the project should be considered.

Mayor Wood informed him that the policy statement was prepared so that all citizens could be informed. He said the statement would be available to anyone to examine.

RESOLUTION NO. 71-125 - RESOLUTION ADOPTING A POLICY STATEMENT ON CIVIC CENTER PROJECT

The Council then individually signed the statement, and upon motion of Councilman Morris, seconded by Councilman Hoyle, Resolution No. 71-125, a Resolution Adopting the Policy Statement, and setting in motion procedures for holding a referendum on December 14, 1971, for the voters of the City of Asheville to approve the issuance of $3,000,000.00 in general obligation bonds to complete the Civic Center, was unanimously adopted.

Mr. Robert Weiler, representing the Asheville Symphony Society, read the following resolution, adopted recently by his organization:

BIDS FOR NEW ENTRANCE DOORS AND GLASS ENCLOSED VESTIBULE FOR CITY HALL BUILDING

5. Council considered the following bids for the installation of new entrance doors and glass enclosed vestibule for the City Hall Building:

Pritchard Paint and Glass Co.	Merchants Construction Company
$4,612.00	$8,980.00

The City Manager read the bids and recommendations of the Purchasing Agent and added his recommendation that the low bidder, Pritchard Paint and Glass Company be awarded the bid.

Councilman Colton moved, seconded by Vice Mayor Marshall, that the bids be awarded to the low bidder. This motion was unanimously adopted.

this delay and debate has been a very negative influence on the civic pride and cooperative spirit of our community. We have pulled apart as a community much too long. We must now pull together. Your Council is made up of seven men from varied backgrounds and occupations. Every possible consideration has gone into our decisions announced today. Our conclusions are unanimous and we are pledged to exert every effort to bring our City back together on this question and move together into the future.

We cannot, however, do this alone. We ask the support of all segments of our community for this supplemental bond referendum. So often in the past, civic projects and facilities in our community have been "too little" or "too late." Let us work together toward the completion of this Civic Center. When it is completed, we are satisfied it will be a significant asset to our civic and cultural life and will further the development of our community.

Henry E. Colton, Councilman

Ruben J. Dailey, Councilman

J. W. Hoyle, Councilman

MISS AUGUSTA BARNETT
LETTER REQUESTING RETIREMENT

The City Manager advised the Council that he had received a letter requesting retirement from Miss Augusta Barnett, effective as soon after November 7, 1971 as practicable.

Mayor Wood said Council would accept Miss Barnett's request for retirement as information for the time being, and later find some way to give her the recognition she deserves.

The City Manager advised Council that he is seeking to find a qualified candidate to pursue the city's parks and recreation programs, and solicited suggestions as to likely candidates for the job.

REPORT OF CONGESTED PARKING IN FRONT OF THE RESIDENCE OF MRS. A. F. COSNER 41 VICTORIA ROAD

6. With reference to the complaint of Mrs. A. F. Cosner of 41 Victoria Road, regarding the congested traffic in front of 41 Victoria Road, the City Manager read the following:

A letter from Dr. A. C. Riddle, Jr.
A memorandum from W. A. Bostic, Jr., City Street Superintendent.
A memorandum from Paul Dutcher, City Traffic Engineer.

All indicated that the doctors in the Medical Dental Building were not violating the use of the public street.

Both Mr. and Mrs. Cosner addressed the Council and requested some action be taken.

Mayor Wood informed them that since Victoria Road was a public thoroughfare, and since no laws were being violated, there was very little the Council could do.

ORDINANCE NO. 714 - AN ORDINANCE DIRECTING THE HOUSING OFFICER TO DEMOLISH THOSE HOUSES KNOWN AS 22 BAXTER ALLEY, 21 BAY STREET, 55 AND 61 CIRCLE STREET, 25 CLEMMONS STREET, 53 ELIZABETH PLACE, 32 GIBBONS STREET, 208 HAYWOOD STREET, 27 JERSEY STREET, 7 KNOB STREET, 46 AND 52 MAX STREET, 247 PATTON AVENUE, 31 RIDGE STREET, 10 TUSKEEGEE STREET, AND 21 WEAVER STREET

7. Consideration was given to Ordinance No. 714, an Ordinance directing the Housing Officer to demolish various sub-standard houses under the authority of Chapter 8 of the Code of Ordinances.

The City Manager read the complete ordinance.

A. C. Mitchell, a resident of the area in which most of the houses are located, stated that the time interval before demolition would begin could work a hardship on those who wished to repair their houses rather than have them torn down.

Mr. J. E. Johnson, City Building Inspector, answered by informing Council that all the houses designated for demolition were vacant and were almost unrepairable.

Dicie Jackson spoke in favor of the ordinance and concurred with Mr. Johnson's statement.

Councilman Colton moved the adoption of the ordinance, Vice-Mayor Marshall seconded this motion and it was passed unanimously on its first reading.

PRESENTATION OF MODEL CITIES SECOND ACTION YEAR PROGRAM

8. The Council heard Arthur Edington, Vice Chairman of the Model Cities Commission, summarize the Second Action Year Program.

The Council questioned several of the recommendations for the agency's Second Action Year Program and the Model Cities officials and residents of the area very vigorously defended their priorities, particularly the "Self-Defense" Program.

Charles Mathews, Joe Walker, Shirley Brown, James McDowell, Nola Knuckles, and Larry Fisher all spoke in favor of the "Self-Defense" Program.

Nellie Hughes, representing the Girl Scouts, spoke in opposition to the reduced Girl Scout Program.

Upon motion of Councilman Dailey, seconded by Councilman Colton, the resolution was unanimously adopted.

On questioning by the Council, Mr. W. A. Bostic, Superintendent of the Street Department, stated that the life of the equipment should be from 5 to 7 years, and that he could not foresee any problems with parts or repairs by awarding the bid to a firm outside the city. He further stated that the piece of equipment being furnished by the low bidder was in excess of the specifications and that he recommended the low bidder.

The City Manager concurred in this recommendation.

Councilman Morris moved that the low bidder of $18,334.96 for Item I, made by the Arden Equipment Company, be accepted. Councilman Ochsenreiter seconded this motion and was unanimously adopted.

DISCUSSION OF THE ASHEVILLE HIGH SCHOOL FOOTBALL GAMES AT MEMORIAL STADIUM.

A group of students representing the Advisory Committee of the Asheville High School, lead by Miss Morris, a teacher at the school, addressed the Council in regard to the fighting and disorderly conduct that took place at the football game on October 16th. They requested better fencing, clearing of brush around the outside perimeter, posting of signs prohibiting the drinking of alcohol and improved lighting in the parking lots. They were concerned that the football games would either be cancelled or changed to daytime games which would seriously curtail the gate receipts, thereby cutting the funds that support other sports activities at the school.

Mr. Ray Lamey told the Council that he attended the football game on October 16 and while he was in the rest room he was beaten by several persons. He asked that some action be taken to maintain law and order. He did not prefer that the time of the games be changed.

Mr. Tom Hornaday stated that he observed several incidents at the game and he appealed for more law enforcement.

Police Chief Hall when asked why the auxiliary police officers on the field were not assisting in maintaining order told the Council that these men were not covered under workmens compensation and were there to control traffic only. The City Manager requested the Council to consider an ordinance that would establish an Auxiliary Police System but no action was taken by Council on his recommendation.

Regarding the request for more fencing and lighting, the City Manager informed the Council that he recognized the need for both. He said that with the use of contingency funds he could improve both the fencing and the lighting.

Councilman Colton moved that the City Manager, working with the Chief of Police and the Director of Parks and Recreation, be authorized to expend contingency funds on an emergency basis to erect additional fencing and improve the lighting at Memorial Stadium. This motion was seconded by Councilman Morris and was unanimously adopted.

8. Consideration was given to a resolution authorizing submission of the Asheville Comprehensive City Demonstration Program for the Second Action Year, as amended.

Mayor Wood reviewed the October 7th Council meeting in which Council deleted the Housing Corporation and Self-Defense funding from the program. He recalled that at this meeting a resolution was passed requesting the Model Cities Commission and the Model Cities Staff and Task Forces to rework the plan to cover these deletions. In response to this request he stated that he had received a letter from the Model Cities Commission in which they recommended no change in the original budget. Based on this recommendation and an informal discussion with Council, he said that he had asked the Corporation Counsel to prepare a resolution authorizing submission of the Asheville Comprehensive City Demonstration Program for the Second Action Year. He said the summary sheet would reflect the deletion of $150,000 for the Housing Corporation and also $40,257 from the proposed Self-Defense Program. The last sum to be reprogrammed to a recreation program to be devised by the City Parks and Recreation Department working with Model Cities Agency and Commission personnel to finalize a contract. The Mass Transit Program would be funded in the amount of $100,000, the Summer Program in the amount of $86,445 and the Inner City Challenge Program in the amount of $29,321.

Councilman Morris moved for the adoption of the resolution and Councilman Ochsenreiter seconded his motion.

In the discussion that followed Mrs. Johnson, Mrs. Knuckles, Mrs. Jackson, and Mrs. Simmons, all representing the Commission or the Physical Environment Task Force, urged the Council to reconsider the Housing Corporation deletion and presented several petitions from the Model Cities Neighborhood Residents emphasizing their concern.

Mr. Joe Walker, representing the Crime and Delinquency Task Force also appealed to Council to reinstate the Self Defense Program.

Councilman Morris then moved to amend the resolution by reducing the Mass Transit Program to $80,000 and the Summer Program to $56,445, thus funding a Housing study and Prototype Study in the amount of $50,000. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

Mr. Fred Pearlman appeared in behalf of Avon Development Corporation snd explained that since receiving approval of an amended plan, circumstances had changed and that they were now in a position to develop the entire property or the original plan. He further explained that time was of the utmost importance and that any unnecessary delays would bring forth a revision in the plan.

Councilman Colton requested a legal opinion from the Corporation Counsel and was advised that in his opinion Council could proceed to public hearing. Councilman Colton then asked Mr. Pearlman if he was satisfied to proceed as was proposed and he answered in the affirmative.

Mayor Wood declared the public hearing continued until November 11, 1971, and directed that at that time, the matter be placed first on the agenda.

PUBLIC HEARING - C. HENRY McCLAIN GROUP DEVELOPMENT ON SHELBURNE ROAD

4. Public hearing was held to consider the group development of C. Henry McClain on Shelburne Road.

Mayor Wood opened the public hearing at 3:35 o'clock P. M.

The City Manager read the published affidavit and cited several petitions that had been received from residents in the area, as well as a letter from the West Asheville Businessmen's Association, all of which opposed the development. The City Manager also noted that he had received a letter from Mr. McClain in which he explained his plans to construct a high type apartment complex.

Alan Lang, a staff member of the Planning Department, read the favorable recommendation of the Planning and Zoning Commission.

Mr. Gary Sluder, attorney for Mr. McClain, outlined to Council the type and size of the apartment units, that they would be completely carpeted and that all appliances would be furnished. He said it was the intention of his client to build a luxury type complex that would rent in the range of $150 to $175 per month. He stated that before acquiring the property and planning the project, Mr. McClain made certain that he could comply with all zoning regulations, and at this time his plans met all these requirements.

Mr. Shelby Horton, attorney for the Shelburne Road residents, spoke in opposition to the approval of the plan. He said that the residents of this area were concerned with the traffic conditions on Shelburne Road and the addition of an apartment complex would create an even greater problem. He cited a traffic count taken October 20, 1971 as indicating 1,974 vehicles traveling the street in a 24 hour period. He also presented photos showing the narrow condition of Shelburne Road.

Mr. Horton then called on Mr. Norman Anderson, Mrs. Nora Morgan, Mrs. B. H. Corpening, Mrs. Norman Anderson and Dr. J. L. Innes to address the Council and each voiced their opposition, giving the traffic and public safety as their primary objection. They also cited the likelihood of decreased property values if the project were built.

Mr. Robert Groce, a non-resident of the area, spoke in opposition.

Mr. Luke Atkinson speaking in opposition said he was sure Mr. McClain's intentions were good but he thought Council should consider the feelings of the neighborhood.

Mayor Wood asked Alan Lang of the Planning Staff if the Planning and Zoning Commission could consider traffic and safety in making their recommendation. Mr. Lang stated that they did not have jurisdiction in this area.

Mayor Wood then asked the Corporation Counsel to advise Council as to the legal aspects open to them. Mr. Robinson advised that in accordance with the Zoning Ordinance all requirements had been met, and that in the interest of safety, health and public convenience would be the only grounds for Council to turn down the request.

Councilman Colton then moved for the approval of the site plan, this motion was seconded by Councilman Dailey.

PUBLIC HEARING - SITE PLAN OF AVON DEVELOPMENT CORPORATION AND McCRORY-SUMWALT CONSTRUCTION COMPANY - MERRIMON AVENUE

3. Public hearing was held to consider the approval of the original site plan of Avon Development Corporation and McCrory-Sumwalt Construction Company on Merrimon Avenue.

Mayor Wood opened the public hearing at 3:26 o'clock P. M.

The City Clerk read the published affidavit scheduling the public hearing and Alan Lang, of the Planning Staff, read the favorable recommendation of the Planning and Zoning Commission. He stated that their approval was subject to the following condition:

(1) That all curb cuts and access road into Merrimon Avenue be approved by the State Highway Commission.
(2) That access to the duplex behind the development be from Lakeshore Drive and not through the shopping center parking lot.

Mr. Hershel Harkins, attorney for the residents in the area, appeared and asked for a clarification of which plan was being approved. Mr. Pearlman, one of the owners, described the original plan and Mr. Harkins said he was satisfied.

Mayor Wood closed the public hearing at 3:35 o'clock P. M.

Councilman Ochsenreiter moved that the site plan be approved. Councilman Morris seconded the motion and it was unanimously adopted.

C.HENRY McCLAIN SITE PLAN - SHELBURNE ROAD.
REPORT OF CORPORATION COUNSEL, ROBERT J. ROBINSON

4. Further consideration was given to the approval of the site plan for the group development project of C. Henry McClain on Shelburne Road. Action on this subject was deferred from the November 4 meeting pending an investigation and a report of the legal questions by the Corporation Counsel.

Mayor Wood asked for the Corporation Counsel's opinion, which is referred to and made a part of these minutes as if fully set out herein. Mr. Robinson's opinion is that the petitioner "has met all legal requirements".

Mr. Shelby Horton, attorney for the opponents, and Mr. Gary Sluder, attorney for Mr. McClain, argued the legal aspects. Mr. Horton suggested that if Council approved the site plan it should be done only after steps had been taken to provide additional sidewalks and perhaps the widening of Shelburne Road.

Mr. Sluder stated that his client would be willing to donate sufficient right of way to construct a 6-foot sidewalk on their side of the road.

Councilman Colton had moved at the November 4 meeting to approve the plan and Councilman Dailey had seconded this motion. Both Councilmen Colton and Dailey accepted the amendment to their motion which incorporated the provision that the developer deed 6-feet of his frontage for sidewalk purposes.

The motion as amended was adopted unanimously.

CONTINUATION OF PUBLIC HEARING - REZONING OF PROPERTY AT 46-48-50 MIMOSA DRIVE

2. Mayor Wood declared the public hearing to consider the rezoning request of B. L. Bullard, to rezone the property at 46-48-50 Mimosa Drive from RA-6 Residential District to Neighborhood Trading Area back in session at 3:03 o'clock P. M.

Alan Lang, of the Planning Staff, read the negative recommendation of the Planning and Zoning Commission.

Mr. Bullard explained to Council that he had considerable investment in the property and that under the present zoning he could not use it and stood to lose considerable money. He said the building had been vacant since January, but that he had owned the property since 1946.

Mr. Lang, stated that the property was completely surrounded by streets and only contained 4200 square feet making it too small for commercial use. If it was rezoned to Neighborhood Trading Area the 35 foot setback requirements could not be met.

Mayor Wood closed the public hearing at 3:17 o'clock P. M.

It was moved by Vice Mayor Marshall, seconded by Councilman Hoyle that the ordinance be adopted.

Councilman Morris told Mr. Bullard that it was unfortunate that the property had such limited use but to pass the rezoning ordinance would restrict the use even more.

When Mr. Bullard asked if this was not a hardship case, he was advised that there were avenues of appeal that he could pursue.

Councilman Ochsenreiter requested that Mr. Johnson counsel with Mr. Bullard and advise him as to what action would be most advantageous to him.

Councilman Dailey moved to table the consideration of the ordinance, Vice-Mayor Marshall seconded the motion and it was unanimously adopted.

ZONING ORDINANCE - RECOMMENDATION FROM THE PLANNING AND ZONING COMMISSION REGARDING THE REZONING OF THE PROPERTY OF LYLE D. WARD, N. ELLIS CANNADY, JR., AND JAMES M. DOWTIN ON DEAVERVIEW ROAD AND BEAR CREEK ROAD

6. Consideration was given to a recommendation from the Planning and Zoning Commission regarding the rezoning of the property of Lyle D. Ward, N. Ellis Cannady, Jr. and James M. Dowtin on Deaverview Road and Bear Creek Road, from RA-6 Residential District to Commercial.

Alan Lang of the Planning Staff read the favorable recommendation of the Planning and Zoning Commission.

Upon motion of Vice-Mayor Marshall, seconded by Councilman Morris it was moved that the notice of public hearing be advertised at the petitioners expense. At Mayor Wood's request the date was set for December 9, 1971. This motion carried unanimously.

In later action Councilman Ochsenreiter moved that the date for public hearing in the above matter be rescinded and that a new date of December 2, 1971 be substituted. This public hearing to be held at the Council meeting in the Murphy Community Center at 7:30 o'clock P. M.

This motion was seconded by Councilman Dailey and was unanimously adopted.

RESOLUTION NO. 71-138- A RESOLUTION AMENDING RESOLUTION NO. 71-132 ADOPTED OCTOBER 14, 1971 ENTITLED: RESOLUTION CALLING A SPECIAL BOND ELECTION

Mayor Wood called to Councils attention that through an error in interpretation the previous bond resolution called for November 12, 1971 to be the last day of registration for the December 14, 1971 Bond Election.

He stated that the State Board of Elections had determined that November 15, 1971 should have been the cut off date and to correct this it would be necessary to pass a resolution amending the previous resolution.

Councilman Morris moved for the passage of the amending resolution. Councilman Hoyle seconded the motion and it was passed unanimously.

R. L. COLEMAN AND COMPANY REQUEST FOR CERTIFICATE OF OCCUPANCY FOR SEARS ROEBUCK AND COMPANY AND ALSO A REQUEST FOR THE ADVERTISING FOR A PUBLIC HEARING ON A REVISED GROUP DEVELOPMENT PLAN FOR THE ASHEVILLE MALL.

6. Consideration was given to R. L. Coleman and Company to a request for a temporary Certificate of Occupancy for the Sears Roebuck and Company building in the Asheville Mall.

Mr. R. L. Coleman, owner and developer of the Asheville Mall, presented a request to Council that a temporary Certificate of Occupancy be granted on the Sears Roebuck and Company building in order for Sears to fixture and stock the new building.

Councilman Colton said that he was present at the original approval of the site plan and it was specifically stated at that time that the Certificate of Occupancy would be with held until complete compliance was accomplished. He personally was opposed to a temporary certificate.

Mayor Wood asked Mr. Coleman what the situation would be if Sears moved in temporarily and the Planning and Zoning Commission did not approve the revisions. Mr. Coleman replied that he was sure all requirements could be met. He also stated that he was under $3,211,000 bond to Sears to meet all the zoning and building code requirements.

Councilman Morris asked why Sears was not represented and Mr. Coleman said that to acquire the Certificate of Occupancy was the responsibility of the contractor.

Mrs. John Willard, a resident of the area, opposed any revision to the original plan. She said her house was now at the bottom of a large fill and she was concerned for the safety of her children.

Councilman Dailey offered the motion that a temporary Certificate of Occupancy be granted, and Councilman Ochsenreiter seconded this motion.

Councilman Colton again spoke in opposition.

Mrs. Garland, a resident of White Pine Drive, also spoke in opposition to approval.

Councilman Morris stated that he felt that Sears Roebuck and Company should make formal application and be represented. He then moved to table the request until such time as Sears Roebuck and Company or their representative, authorized in writing, made application for the Certificate of Occupancy. Councilman Hoyle seconded the motion and the motion was carried by a voice vote of 5-1. Councilman Dailey voted "no" and Mayor Wood did not vote.

On Mr. Coleman's second request, Council discussed at length the legality of advertising for a public hearing in advance of a recommendation from the Planning and Zoning Commission.

Councilman Colton stated that under no circumstances did he want the Planning and Zoning Commission circumvented.

Re: Group Development - Petition of C. Henry McClain

Gentlemen:

I am herewith submitting to you my report and opinion in connection with the matter referred to me by you on Thursday, November 4.

Ordinance 322, provides in Subsection C, of Section 9, the procedure under which Group Developments may be approved by the City Council. It provides that prior to the issuance of building permits for the construction of buildings in any group development, a Site Plan shall be submitted to and approved by City Council. Prior to approval, the Planning and Zoning Commission shall make recommendations and a public hearing shall be held.

Planning and Zoning has made its recommendations with which you are familiar, approving the Site Plan and each of you is familiar with the information brought forward at the public hearing. The Ordinance provides those items which the plan for the group development must include. Planning and Zoning has provided to you its group development check list in accordance with the terms of the Ordinance. You are fully familiar with the fact that the Planning and Zoning Commission raised no question with respect to any of the items contained in the check list.

You have requested my opinion with respect to your authority to approve or disapprove the proposed group development. Original zoning power of the State reposes in the General Assembly. The General Assembly has delegated this power to the "legislative body" of municipal corporations under the terms of NCGS 160-172, et seq. Under this general authority and in order to promote the health, safety, morals, and general welfare of the inhabitants of the City of Asheville, the Asheville Zoning Ordinance, No. 322, as amended, has been adopted. As you know, the property in question is in an area zoned RA-8, residential district, and included among the uses permitted in this area are "multiple dwellings". Therefore, C. Henry McClain is not requesting a change to a different zoning classification, nor is he

requesting a variance from the existing classification in which his property is located. In Yancey v. Heafner 268 N.C. 263 (1966), our Supreme Court stated:

> "Zoning regulations are in derogation of common law rights and they cannot be construed to include or exclude by implication that which is not clearly their express terms. It has been held that well-founded doubts as to the meaning of obscure provisions of a Zoning Ordinance should be resolved in favor of the free use of property." Yokley, Zoning Law and Practice, 2nd Edition (1962 Supplement) Vol. 1, Section 184.

Also in the case of In Re: Application of Construction Company 272 N.C. 715 (1968), our Court stated:

> "A zoning ordinance, like any other legislative enactment, must be construed so as to ascertain and effectuate the intent of the legislative body. Bryan v. Wilson, 259 N.C. 107, 130 S.E. 2d 68. A zoning ordinance, however, is in derogation of the right of private property and provisions therein granting exemptions or permissions are to be liberally construed in favor of freedom of use. In Re: Crouch, 258 N.C. 345, 128 S.E. 2d 409."

It appears clear, therefore, that Mr. McClain has relied upon the Zoning Ordinance as conceived and adopted by a prior City Council in locating his proposed apartment complex within an area zoned for that purpose.

In a recent case, Allred v. City of Raleigh, 7 N.C. App. 602 (1970) there was involved a zoning change from an area providing for single-family residential to a lower zoning classification of residential, permitting apartments and other non-single family residence usages. The Plaintiffs, who were residents of the area sought a declaratory judgment seeking to declare the ordinance change invalid. They argued that the area surrounding the rezoned property was quiet, orderly and a "high-class" residential area. They referred to a 1926 U.S. Supreme Court case, Euclid v. Ambler Co. 272 U.S. 365, a landmark case dealing with zoning regulations. Dictum in that case stated that apartment developments within an area of detached residences may destroy its residential character, and its desirability as a place for detached residences. The North Carolina Court of Appeals did not accept this argument, but stated:

> "Since that time more and more people have turned to apartments as permanent homes -- many by choice. Few, if any, cities today enjoy the luxury of having enough land available to accommodate substantially all of their citizens in detached houses. Consequently, more land often has to be made available for apartments

under existing zoning regulations. Many modern and luxurious apartment buildings tend to compliment the area where they are located."

It must be pointed out that most cases dealing with the type of argument which was presented by the property owners at your public hearing on November 4, are those in which the apartment owner-builder is seeking either a change in zoning classification or is seeking a variance. In Mr. McClain's case he is seeking neither a change nor a variance, but is providing the City Council with documentation required under the Ordinances as to the necessary information concerning type, size and location of improvements to be located upon the property.

The opponent's reference to a clear threat to public safety by reason of the addition of new families on this approximate 3-acre tract was primarily related to traffic hazards as they may exist on the adjoining Street - Shelbourne Road. In addition, such things as annoyance and loss of property values were argued. All these arguments are political in nature and not legal, placing in question a prior Council's wisdom in original zoning of the area. The question of law is whether the project as proposed meets the standards of the Ordinance as it presently exists. The property is contained in an area zoned for the petitioner's proposed purpose. He has met all conditions of the Ordinance and I must, therefore, give you my opinion that he has met all legal requirements.

Please advise if there is further research that I can do in regard to this particular matter.

Very truly yours,

Robert J. Robinson

7. That the planting of trees be done in accordance with good nursery practice and be maintained in good condition including the prompt removal and replacement of dead or unhealthy plants.

The eighth condition being the obtaining of an opinion of a traffic safety engineer concerning possible traffic hazards in certain fill areas adjacent to residential property.

With reference to the eighth condition, Mr. Paul Dutcher, Traffic Engineer, reported to Council that a 2% grade sloping away from the fill area was being proposed. He added that unless a car was being driven at a reckless or high rate of speed it was unprobable that it would roll over a 2 foot berm being constructed in the fill area.

Mr. R. L. Coleman, the developer, addressed the Council and explained the change in plans and that the increase in rock excavation necessitated the raising of the grade of the fill area. He said he intended to protect this area with the construction of a 2 foot berm 8 feet wide. He asked permission to withhold planting of the required trees until foundation excavation had been completed so that he could use this dirt to construct the berm.

Mayor Richard A. Wood
and Members of the City Council
City Hall
Asheville, North Carolina

Gentlemen:

In your meeting of December 9, 1971, you requested that I prepare for you amendments to a proposed floodway ordinance, which had been prepared by the Planning and Zoning Commission and submitted to you for action on that date.

Your particular request was that the ordinance be prepared pursuant to minimum standards which could comply with Part VI of Article 21 of Chapter 143 of the North Carolina General Statutes which was effective July 1, 1971.

The statute in question contains various definitions and means by which local governments may delineate floodways and by which it may subject floodways to regulation.

From a reading of the statutes, it appears that this Part VI is merely an authorization for a governing body to take action and that its terms are permissive and grant authority to regulate, but do not make it mandatory for the governing body to so regulate; thus, if City Council wishes to do the minimum, it may do nothing.

In my opinion, until such time as you, the local governing body, exercise your authority by delineating floodways within the City's zoning jurisdiction, the Building Inspector has no authority to refuse to grant building permits in any area of the City on a basis that it is located within what might be delineated as a floodway. Positive action is necessary and until the full impact of such action is known, I would recommend that no action be taken.

Very truly yours,

Robert J. Robinson

3. Consideration was given to a resolution authorizing the Mayor to enter into an agreement with Win-Tex Knitting Mills, Inc. for fire protection outside the City Limits on a first call basis.

The City Manager read the resolution which stated the terms of the contract for this service would be $100.00 per year, plus $50.00 per hour or a minimum of $250.00 for answering any calls to the premises of this company.

Chief Ball explained to Council that the city had three similar contracts now in force and that he had assurance from the Insurance Service Office that this would not affect the insurance rating of the City. The City Manager was directed to look into a new fee schedule for future requests for similar contracts.

Councilman Ochsenreiter moved for the adoption of the resolution. Councilman Morris seconded this motion and it was carried unanimously.

RESOLUTION No. 72-1 - A RESOLUTION APPOINTING MEMBERS OF BOARD OF ELECTRICAL EXAMINERS AND MEMBERS OF BOARD OF EXAMINERS OF MOTION PICTURE OPERATORS

4. Consideration was given to a resolution appointing members of the Board of Electrical Examiners and members of the Board of Motion Picture Operators.

The City Manager read the resolution appointing Frank Davis as representative of the electrical contractors, Rex Blakney as representative for journeymen and Walter Harlow as utility representative as members of the Board of Electrical Examiners; and W. R. Pruitt, Electrical Inspector and Thomas L. King, Assistant Electrical Inspector, as ex-officio members of the Board, all for two year terms beginning July 1, 1971, or until their successors are duly appointed and qualified. The resolution also appointed Mr. H. H. Bowen and Mr. L. B. Simmons, as members of the Board of Examiners of Motion Picture Operators, with W. R. Pruitt and the Board of Electrical Examiners as ex-officio members, all for two year terms beginning July 1, 1971, or until their successors are duly appointed and qualified.

Councilman Dailey stated that even though there were no black journeymen electricians in Asheville who would qualify for membership on this board, he differed with the law and that it was his opinion that a layman should be eligible, he therefore made a motion that Malachi Cromartie be appointed a member of the board. This motion did not receive a second and Councilman Morris moved for the adoption of the resolution. Councilman Hoyle seconded this motion and the resolution was unanimously adopted.

Councilman Dailey then moved that the Corporation Counsel be instructed to prepare a new ordinance for Council's consideration that would enlarge the membership of the Board of Electrical Examiners and include in its membership the appointment of a layman. This motion was seconded by Councilman Hoyle and carried unanimously.

2. A public hearing was held to consider the proposed extension of the City Limits in the Sweeten Creek Road - Caribou Road area; being Sections 2 and 3 of the Windswept Subdivision of the Imperial Land Corporation.

The City Manager advised Council that after due advertisement, today is the date set for the public hearing.

Mayor Wood opened the public hearing at 3:04 o'clock p. m.

Mr. Ken Partin, President of the Imperial Land Corporation, spoke in favor of the annexation, and informed Council that it was planned to construct 81 homes in the $18,000.00 to $25,000.00 price range in this subdivision.

The City Manager reviewed the cost/revenue analysis for Council,and advised them that the annexation of completely residential areas was usually a losing proposition.

A lengthy discussion followed revolving around the present need for the construction of homes in the price range proposed.

Mayor Wood closed the public hearing at 3:42 o'clock p. m.

Mayor Wood asked the City Manager to read Ordinance No. 721 - An Ordinance Extending Corporate Limits of the City of Asheville By Annexing Certain Property.

REQUEST TO THE NORTH CAROLINA STATE HIGHWAY COMMISSION TO ERECT NO LEFT TURN SIGNS FROM THE EAST SIDE OF TUNNEL TO CHUNN'S COVE ROAD FROM 4 - 6 O'CLOCK P. M. MONDAY THROUGH FRIDAY.

Councilman Hoyle informed Council that, as their representative, he had been working with the North Carolina State Highway Commission to expedite the traffic through Beaucatcher Tunnel. He said he had found them to be most cooperative, and to date the walls of the tunnel had been painted, and the lights had been cleaned and reworked. He said the Highway Commission would like to go one step further and restrict the left turn movement from the east end of the tunnel to the stop light at the Tunnel Road Shopping Center, from 4- 6 o'clock P. M. on Monday through Friday. Councilman Hoyle said the Highway Department had agreed to erect the necessary signing. He said he felt that this regulation would move the traffic through the tunnel at a faster pace and would relieve the present bottleneck.

Councilman Hoyle then moved that Council request the Highway Commission to proceed with their plans to restrict the left turn movement from the East side of the tunnel, east to the first stop light at the Tunnel Road Shopping Center, from 4 - 6 o'clock P. M. on Monday through Friday.

William J. Walcutt
CITY CLERK

The City Manager read the resolution.

Mr. Talman also assured Council that the agreement would be for three years.

Councilman Ochsenreiter moved for the adoption of the resolution. Councilman Hoyle seconded this motion.

A discussion followed concerning the nickname for the Asheville team. Councilman Colton contended that the name Asheville Tourist should be maintained. TEMPORARY OCCUPANCY PERMIT APPROVED FOR SEARS ROEBUCK AND COMPANY WAREHOUSE IN THE ASHEVILLE MALL.

Consideration was given to a request of R. L. Coleman to issue a temporary Certificate of Occupancy for the Sears Roebuck and Company Warehouse in the Asheville Mall.

Mr. Coleman asked Council to approve the issuance of a temporary occupancy permit for the warehouse portion of the new Sears Roebuck Store in the Asheville Mall. He explained that Sears was experiencing considerable difficulty in trying to operate without the warehouse. He further explained that most of the work required by Council had been completed, but due to the inclement weather some of the work would have to be deferred. He said that the fencing was almost complete but the tree planting would require three or four days of dry weather before planting could continue.

Mr. William Hackney, Sears Asheville Store Manager, explained to Council his operating problems, and said that January 17, 1972 was the latest that Sears could get started using the warehouse and still make the February 23, 1972 opening date. He said he understood that the temporary permit applied only to the warehouse area.

Councilman Morris moved that the Building Inspector be directed to issue a temporary Certificate of Occupancy for the warehouse portion until February 23, 1972, pursuant to their written request. Councilman Hoyle seconded this motion.

RESOLUTION NO. 72-6 - A RESOLUTION PROVIDING FOR THE ISSUANCE OF $3,000,000 AUDITORIUM AND ARTS CENTER BONDS

3. Consideration was given to a resolution providing for the issuance of $3,000,000 Auditorium and Arts Center Bonds.

Councilman Dailey introduced in written form the following resolution which was read:

RESOLUTION PROVIDING FOR THE
ISSUANCE OF

$3,000,000

AUDITORIUM AND ARTS CENTER BONDS

BE IT RESOLVED by the Council of the City of Asheville:

Section 1. The Council has determined and does hereby find and declare:

(a) That an ordinance authorizing $4,000,000 Auditorium Bonds was passed on October 19, 1967, which ordinance was approved by the vote of a majority of the qualified voters of such City who voted thereon at an election duly called and held on December 5, 1967.

(b) That an ordinance authorizing $1,300,000 Civic Arts Center Bonds was passed on October 19, 1967, which ordinance was approved by the vote of a majority of the qualified voters of said City who voted thereon at an election duly called and held on December 5, 1967.

(c) That for convenience said Auditorium Bonds and said Civic Arts Center Bonds were consolidated into a single issue of $5,300,000 Auditorium and Arts Center Bonds, and all of said $5,300,000 Auditorium and Arts Center Bonds under date of June 1, 1971 were issued.

In the discussion that followed, considerable concern was voiced over the construction of the required berm. It was noted that the berm, fencing and planting would have to be complete before the Certificate of Occupancy for the entire Sears complex would be issued. Mr. Hackney was asked if he understood that if the work was not completed it was possible that this certificate would not be issued in time for the February 23 opening. Mr. Hackney stated that both he and his company were aware of this fact.

Councilman Colton strongly opposed the issuance of the temporary certificate and said he doubted if Council would "have the courage to withhold an occupancy certificate on February 23, if it didn't have the courage to stick by its position."

Mayor Wood asked for a vote and the motion was passed on a 5 - 1 voice vote, with Councilman Colton voting "nay."

Adjournment.

It was the intention of the Water Department to initiate this recommendation, and specified the new chemical in the request for bids. Mayor Wood opened the public hearing at 3:11 o'clock p. m.

The City Manager read the affidavit of publication.

Alan Lang of the Planning Staff read the favorable recommendation of the Planning and Zoning Commission.

Mr. Phil Carson, attorney representing residents of N. Griffing Boulevard, appeared and stated that it was the feeling of his clients that, due to the narrow and winding condition of N. Griffing Boulevard, the increased traffic generated by the proposed construction would constitute a safety hazzard. He said his clients would object to this unless the present road was improved or other access provided.

Dr. Logan Robertson, president of The Loma Corporation, explained that the condominiums were to be for single family occupancy and it was his opinion that since Town Mountain Road was more convenient to the project than N. Griffing Boulevard, most of the traffic would use this route. He further stated that he would amend the site plan and indicate construction and dedication of a road from the site to a point near

Councilman Hoyle told Mr. Jones that he felt that the restriction would work out the traffic problem if given sufficient time. He said that it was admitted that the signs were too small to be effective but that this mistake was being corrected. He asked Mr. Jones to let him try the larger signs, and to come back to Council if the signs did not work out.

CALVIN JONES REQUESTS LEFT TURN RESTRICTION ON TUNNEL ROAD BE LIFTED.

Calvin Jones, co-owner of Babe's Drive Inn, on Tunnel Road, asked Council to use their influence with the State Highway Commission to have the no left turn restriction on Tunnel Road lifted. He said that his business had decreased 25 per cent since the restriction was imposed and he could not see any improvement in the flow of traffic through the tunnel

Mayor Wood asked for a second to this motion and when he did not receive one he declared that the motion failed for a lack of a second.

The discussion continued with Mr. Gran Childress, of 403 North Griffing Boulevard, speaking in opposition to the development, mentioned the safety aspect in regard to the narrow roads. He stated that he felt enough question had been raised for Council to defer action until they had a time for further study.

Councilman Colton stated that he felt that condominiums were new and it was his opinion that further study should be made by the Planning Department. Councilman Ochsenreiter concurred in this opinion.

Councilman Colton then moved that the matter be referred to the Planning and Zoning Commission for further study and recommendation. This motion was seconded by Councilman Ochsenreiter. Mayor Wood called for a voice vote and the motion passed by a 4-3 margin.

Mr. Alan Lang, of the Planning Staff, was called on to read a memorandum from the Planning and Zoning Commission which denied the approval of the site plan.

Mr. Gary Sluder, attorney for the Kingston Corporation, addressed the Council and noted that even though the Planning and Zoning Commission denied the approval, the Planning Staff did recommend it. He outlined the background of the Kingston Corporation and covered in detail the many aspects of the F.H.A. 236 project that his client proposed to construct on the site. He presented Council with a letter from the City of Asheville Water Department stating that water and sewer was available to the site. He covered the crowded conditions of Haw Creek Elementary School and the Reynolds High School and countered with the statement that most schools in the county were crowded, but that Reynolds High School was high on the priority list for future additions. He stated that his client had invested considerable amount of money developing the plans for the project and that they had followed the requirements of the Planning Staff in complying with the Zoning Ordinance.

Thursday - February 17, 1972 - 3:00 o'clock p. m.

Regular Meeting

Present: Mayor Richard A. Wood, Jr., Presiding; Vice-Mayor Calvin W. Marshall, Councilmen Eugene C. Ochsenreiter, Jr., Ralph D. Morris, Jr., Henry E. Colton, Ruben J. Dailey, J. W. Hoyle, Corporation Counsel Robert J. Robinson, City Manager Phin. Horton III, Assistant City Manager/City Clerk William F. Wolcott, Jr.

1. Approval of minutes of February 10, 1972 meeting.

Upon motion of Councilman Hoyle, seconded by Vice-Mayor Marshall the minutes of the February 10, 1972 meeting were approved as submitted.

CONTINUATION OF THE DISCUSSION ON THE LOMA CORPORATION CONDOMINIUM COMPLEX-GROUP DEVELOPMENT PLAN.

2. Consideration was given to the continued discussion on the approval of the site plan of the Loma Corporation Condominium Group Development, which was deferred from the February 10, 1972 meeting.

Mr. Alan Lang, Planning Department Staff, read the favorable recommendation of the Planning and Zoning Commission.

Dr. Logan Roberson, President of the Loma Corporation, reported to Council that he had complied with their request and that a right of way had been surveyed, dedicated and recorded from the site to the upper end of Patton Mountain Road which would afford access to Town Mountain Road.

Mr. Philip Carson, attorney for the residents of North Griffing Boulevard and Sunset Mountain, addressed Council on behalf of his clients and reiterated his previous contentions that the increased traffic that would be created by this project would definitely be a safety hazzard and objectionable to his clients. He further stated that in making their review the planning staff had not taken into consideration the future use of the property if it should be annexed. He also cited other omissions that he felt should be given futher study. He asked Council to withhold their approval until all requirements of the subdivision ordinance had been met.

A lengthy discussion followed involving the application and interpretation of the subdivision ordinance. At the conclusion, Councilman Ochsenreiter moved that the City Attorney and Mr. Lang of the Planning and Zoning Commission, review the entire plans to make sure that any technicalities that might be involved in this group development project are clear, before continuing with the hearing.

Councilman Morris asked Mr. Robinson if Council had a choice. Mr. Robinson told Council that they did have a choice in their decision in that; (1) whether the applicant complied with Section 9 C (2) of the Zoning Ordinance (2) whether there is adequate recreational area within the project. Based on a decision on these points Council could turn the project down.

Councilman Ochsenreiter stated that due to the crowded school situation and the inadequate recreational area, he was inclined to disapprove the plan.

Mayor Wood asked Mr. Robinson if Council had any discretion in the school situation. Mr. Robinson responded in the negative and said that if people were going to live in an area, government would have to respond to that need and provide schools, streets and other public facilities.

Mayor Wood asked Mr. Horton, City Manager, for his comment. Mr. Horton said, "It is a fact that governmental authorities have legislative authority to enact whatever measures are necessary to provide for school needs. Somewhere along the line Buncombe County has not exercised their judgement to keep up with school construction. Government must be reactive to the need and it would be incumbent on another level of government to satisfy the school needs. I do not think that is a material part of your consideration as to whether or not your zoning powers have or have not been met. The provision of the utilities is now in the province of the City of Asheville. Just as in the Shelburne Road case, the provision of adequate roads and sidewalks is the governmental responsibility of the City."

"If you fail to do this, it is not fair to penalize the property owner for your failure to provide these facilities. Just as it is not fair to penalize this property owner for the lack of school facilities."

Again the question of the legality of the application was raised by Council and the discussion was concluded with a motion by Councilman Colton that the original motion be amended to approve the site plan contingent upon the filing of such additional evidence of the applicants authority as the applicant desires to file. Such evidence is to be presented within five (5) days. This motion was seconded by Councilman Hoyle. The amendment carried unanimously.

Mayor Wood then asked for a voice vote on the motion that the Spruce Hill Apartment Site Plan be approved, contingent on the applicant filing such additional evidence of authority as the applicant desires to file. Such evidence is to be presented within five (5) days.

The motion carried on a 4-2 vote.

(Due to the length of the hearing, no effort was made to record the minutes verbatim. However, a tape recording of the proceedings, in their entirety, is available in the City Clerk's Office).

PUBLIC HEARING- REZONING OF ALL PROPERTY SHOWN ON SHEET 29, WARD 8, BUNCOMBE COUNTY TAX MAPS, TO BE REZONED FROM RA-6 RESIDENTIAL TO RA-10 RESIDENTIAL.

4. A public hearing was held to consider a rezoning request to rezone all the property shown on Sheet 29, Ward 8, Buncombe County Tax Maps, to be rezoned from RA-6 Residential to RA-10 Residential.

Mr. Tom McMann, a member of the Kingston Corporation Staff, in answer to several questions posed by Council, stated that his company would build and manage the apartments and would keep a manager in residence. He said that his company would always be the general partner and liable for maintenance.

Mr. Max Cogburn, attorney for a group of residents of the Haw Creek Section, spoke in opposition to the site plan. He directed Councils' attention to Section 9, Paragraph C, subparagraph 2 of the Zoning Ordinance. He claimed that the Kingston Corporation did not own the property as required, and that it was not the owner's duly and legally authorized agent. He questioned the legality of the application. A lengthy discussion followed between Mr. Cogburn, Mr. Sluder and Mr. Robert Robinson, City of Asheville Corporation Counsel, involving the legal aspects and interpretation of the section of the ordinance in question. The point was not resolved, and Mayor Wood ruled that the hearing would be resumed.

Mr. Cogburn referred at this time to Section 9, Paragraph C, Subparagraph 4 (c) of the Zoning Ordinance relating to requirements as may be considered essential for the protection of the public health, safety, welfare and convenience. He asked Council for an opinion on the relevancy of the crowded school conditions as it would pertain to this section of the ordinance.

Mayor Wood informed him that in the recent Shelburne Road Apartment hearing, the Corporation Counsel had written an opinion to the effect that traffic should not be taken into consideration as an issue. He said he felt that in this case the school situation was similar and that Council should be guided by Mr. Robinson's previous opinion.

Mr. Cogburn then made reference to Section 9, Paragraph C, Subparagraph 4 (c) of the Zoning Ordinance, which stipulates that provision must be made for "safe location of play areas for children and other recreational areas according to the concentration of occupancy." Mr. Cogburn contended that the area shown on the site plan was inadequate for the number of people that would be living in the project. There was considerable discussion on this point after which Mr. Cogburn requested that approval be withheld until further study could be made on the several points that he presented.

At the request of a person in the audience, Mr. Fred Martin, Superintendent of the County Schools, outlined the crowded conditions of all the County Schools and stressed that mobile units were now being used in both the Haw Creek Elementary and Reynolds High School.

Dr. Robert MacPherson, 25 Wake Robin Way, and Mr. Marvin Seiple, 16 Cisco Road, spoke in opposition to the apartment complex.

Mayor Wood closed the public hearing at 6:53 o'clock p. m.

Councilman Morris moved that the site plan be approved. This motion was seconded by Councilman Dailey.

A lengthy discussion followed on all the points set forth by all parties.

Mr. Kmecza, Planning Director, read the recommendation of the Planning and Zoning Commission denying the request.

Mr. Max Cogburn, attorney representing the petitioners, stated that the original petition submitted December 15, 1971 only represented property owners in one area. SALE OF THE ASHEVILLE-HENDERSONVILLE AIRPORT TRACT APPROVED

3. Mayor Wood interrupted the regular agenda to announce that negotiations, between the City of Asheville, Hendersonville and Henderson County to sell the Asheville-Hendersonville Airport Tract, had been completed and that all three had agreed to sell the tract to Harllee-Quattlebaum, Inc.. The sale price of $561 per acre for the 287½ acre site being conditional on the purchaser obtaining a commitment from Steelcase, Inc. of Grand Rapids, Michigan, to buy a part of the tract and build a large plant on it. The agreement also restricts the developer for ten (10) years to use of the land for industrial and commercial purposes only.

Mayor Wood and several of the Councilman expressed their pleasure over successfully negotiating with a developer of Harllee-Quattlebaum's capabilities and experience.

The City Manager read the resolution and advised Council that the agreement conformed with the water extension policy except the nearest existing fire hydrant was 1250 feet instead of the required 1000 feet. He said that due to the desperate need of the Gasperson family to be supplied with water, as well as the recommendation of Mr. Buirgy, Water Department Engineer, he would recommend approval.

Upon motion of Councilman Morris, seconded by Councilman Colton, the resolution was unanimously adopted.

The City Manager reviewed with Council the lengthy negotiations that have been carried on with the airlines in an effort to establish acceptable landing fees at the Asheville Airport. He said that the rates now were seven cents per 1000 pounds of landing weight for the first 10 million pounds, and six cents per 1000 pounds for all over this weight. He said the airlines propose to increase this fee to ten cents per 1000 pounds for the first 10 million pounds and seven cents per 1000 pounds for all landed weight over that. He said that to counter this he had offered the airlines the following three alternatives:

1. A three year agreement with a fee of 13 cents the first year, 14 cents the second year and 15 cents the third year,
2. A five year agreement with rates for the first three years as above, with 16 cents and 17 cents being charged in 1975 and 1976,
3. Or, he would recommend to Council the adoption of an ordinance unilaterally hiking the landing fees to a flat 16 cents per 1000 pounds.

A lengthy discussion followed which was concluded with the Council deciding to adopt on the first reading, an ordinance unilaterally setting the landing fees at 16 cents per 1000 pounds. At the same time, Mayor Wood announced that it was the hope of Council that an "amicable agreement" could be reached before final passage.

The City Manager read the ordinance.

Upon motion of Councilman Morris, seconded by Vice-Mayor Marshall, Ordinance No. 728 passed its first reading on a 6-1 vote.

Council was concerned over the strict specifications of the ordinance and asked Corporation Counsel Robinson to consider changing the language to exempt pet shops and owners of a small number of chickens from the fowl-house requirement.

4. Consideration was given to the third and final reading of Ordinance No. 726, an ordinance amending Section 39 "Schedule of Charges", of Division 3 (Sec. 3A-39) of Chapter 3 A of the Code of Ordinances of the City of Asheville: Providing a schedule of charges for use of the Asheville Municipal Airport.

The City Manager told Council that continued negotiations with the airlines had not produced a satisfactory agreement. He said the latest and best proposal the airlines offered was 10 cents per thousand for the first million pounds of landing weight and 7 cents thereafter for the year 1972, with a straight 10 cents per thousand for 1973 and 1974.

Mr. Horton said he did not feel that this proposal was satisfactory, but that at this time he would suggest to Council that in lieu of the 16 cents per thousand pounds previously suggested for the ordinance, that an amended version of 13 cents per thousand pounds be substituted. He further suggested that the reporting of the exact number of flight operations also be included.

Mr. Horton then read a letter from Mr. Richard Haber, Chairman of the Chamber of Commerce Aviation Committee, which stated that his committee endorsed the suggested 13 cents fee.

The City Manager read the proposed revision of Ordinance No. 726.

Councilman Dailey moved the adoption of the amendment to the ordinance as originally passed on its first two readings. Councilman Hoyle seconded this motion and the motion passed unanimously on a roll call vote.

Ordinance No. 726, as amended, passed unanimously on its third and final reading.

specifications were confusing and it was difficult for bidders to bid on the same item. He suggested that the specifications be simplified, all bids be rejected and new bids received.

Mr. Norman Sultan, Sultan Tire Company, also spoke to Council. He objected to re-bidding since the original bids had been disclosed. He said this would be unfair.

Councilman Dailey moved that the contracts for the tires, tubes and recapping be awarded to the low bidder for each item except item # 2, and that this item be awarded to the second low bidder. Vice-Mayor Marshall seconded this motion and it carried unanimously.

ORDINANCE NO. 737 - AN ORDINANCE TO AMEND SECTION 2-57 ENTITLED "OPERATION OF THE COMMISSION" OF THE CODE OF ORDINANCES OF THE CITY OF ASHEVILLE: AND,

RESOLUTION NO. 72-31- A RESOLUTION APPROVING AND ADOPTING POLICIES AND PROCEDURES FOR THE CONDUCT OF THE 1972 ELECTION TO THE ASHEVILLE MODEL CITIES COMMISSION.

---

6. Consideration was given to an ordinance to amend Section 2-57 entitled "Operation of the Commission" of the Code of Ordinances of the City of Asheville, and also, consideration was given to two resolutions approving and adopting policies and procedures for the conduct of the 1972 elections to the Model Cities Commission.

The City Manager read the first of two resolutions which encompassed the recommendation of the Model Cities Commission for the conduct of their 1972 election. Then he read the second resolution which incorporated several changes suggested by Council members at the April 20, 1972 meeting. These changes principally involved the age requirement of the youth-at-large representative and the registration and voting restrictions pertaining to the youth-at-large representative.

In the discussion on the resolutions several teenagers spoke in favor of 15 year old youths being eligible to run for the youth-at-large post. They cited statistics of youthful envolvement in other cities. Mrs. Nora Valentine, a resident of the Model Cities Area, as well as Logan Delany, appealed to Council not to ignore the interest being displayed by the teenagers.

Mayor Wood explained that theit would be no problem in lowering the required age to 16 but to lower it to 15 would conflict with the N. C. Child Labor Law. He said the law restricted 15 year olds from working after 7:00 p. m. and for more than 40 hours a week, including the time spent in school.

It was concluded that in order to permit a 16 year old to serve as the youth at large representative, Section 2-57 of the Model Cities Ordinance would have to be amended. This would change the required age from 17-21 years to 16-21 years. Corporation Counsel was asked by Council to prepare such an amendment and on completion to present it for their consideration.

After some minor revisions Councilman Morris moved for the adoption of the amendment. Councilman Dailey seconded the motion and on a roll call vote Ordinance No. 737 was passed unanimously on the first reading.

In the interest of time necessary to meet the election schedule, Councilman Morris moved that the rules be suspended and that Council proceed with the second and third readings. This motion was seconded by Vice-Mayor Marshall and carried unanimously, with Mayor Wood not voting.

WE THEREFORE PROCLAIM THAT THE WEEK OF MAY 14th TO MAY 20th TO BE POLICE WEEK and call upon all our citizens in this community to especially honor and show our sincere appreciation for the Police Officers of the City by deed, remark and attitude. WILLIAM RAMSEY - LETTER TO COUNCIL WITH REGARD TO "NATIONAL POLICE WEEK."

Mr. William Ramsey, representing Taxpayers, Inc., read a letter addressed to the Mayor and members of Council suggesting that some action be taken to praise and show support for the Police Department. He expressed his organizations wholehearted support for the Mayor's previous proclamation and explained a plan underway to sponsor an essay contest on "Why I Like the Police."

TO: Mayor Dick Wood, and members of the Council

FROM: William Ramsey, representing Taxpayers, Inc.

Mr. Mayor and Members of the Council:

This is perhaps my first appearance before this fine Council. I came before the former Council several times in the interest of single-family units for low-rent housing developments. Now that single-family units are a reality for low-income families, I come again with another suggestion.

Some weeks ago at a meeting of Taxpayers, Inc., our members voiced a desire to set in motion something that would praise and benefit our local Police Department. Mrs. Garren and I went to Police Chief J. C. Hall with the suggestion and recommendation that a day or week be set aside to honor our local Police Department. From there we took up the idea with Bob Terrell with the Asheville Citizen who agreed with the idea and voiced our suggestion in the following morning's newspaper column. After calling Mayor Wood, we also found that he was agreeable and promised to check with Police Chief Hall.

To support our fine Police Department in face of rising tide of crime is not only good business, but a part of our duty as good citizens. They not only protect our businesses and our lives, but they do many other acts of kindness and courtesy beyond the call of duty.

"Greater love hath no man than to lay down his life for a brother." The Police place their lives in jeopardy that we might have peace. Some have made the supreme sacrifice.. All too recently we have had a dramatic example of this.

Now that our good Mayor and members of the Council are going to issue a proclamation setting aside the week of May 14-20 as Policemen's Week, the members of Taxpayer's Inc. and myself wish to express our wholehearted support of this proclamation. I would like to go one step further and suggest that this proclamation will help to establish a precedent whereby each year a designated time will be set aside to honor local Police.

NEWS RELEASE

Senator B. Everett Jordan and Congressman Roy A. Taylor have reported to the City of Asheville the announcement by the Appalachian Regional Commission of its approval of $101,550 for construction of water line facilities in the Limestone Township area of South Buncombe County. Buncombe County Commission Chairman Gordon H. Greenwood, who is in Raleigh today, joins me in expressing appreciation to the offices of our senator and congressman for their efforts in confirming this grant during this fiscal year.

Mr. Greenwood told me yesterday that he hoped that the announcement would come soon since the project will benefit many residents and business customers of the Asheville water system.

South Buncombe has been plagued with low water pressure and service interruptions for quite some time, and the extension of the 16" water line from the vicinity of the Gerber Plant southward toward the Henderson County line will produce more reliable water service.

Officials of the Appalachian Regional Commission have stated that by solving the problem of low pressure, utilizing a water reservoir now out of service, and improving the source of water to the reservoir, existing customers will have better service, and accelerated economic growth will occur.

The City Council is very grateful for the efforts of our elected representatives and their administrative staff personnel who have worked earnestly to bring about approval of these funds.

The total estimated cost of the project is $372,700. The Appalachian Grant, 30%, is $101,550. Earlier the Department of Housing and Urban Development had announced the grant of $169,750, or 50%, if the Appalachian money and the local share were assured by May 31, 1972. County Commissioner Greenwood told me that, in addition to the city's already budgeted $30,000, the County of Buncombe has available $71,400 to complete the local share.

The most exciting element in this project is the obvious cooperation of city, county, state, and federal units of government in accomplishing a most important improvement tothe utility system of Buncombe County and the City of Asheville. Cooperation of this type is something that Gordon Greenwood and I feel is the way of the future in Asheville and Buncombe County.

We are delighted to release this news and express again our thanks to Senator Jordon and Congressman Taylor.

The total base bid would then be $735,000.00 with the kitchen equipment included or $687,500.00 without the kitchen equipment. He said the contractor had agreed to re-insert the kitchen equipment anytime within 45 days. He recommended that this bid be accepted. He also recommended the approval of the rock change order in the amount of $68,587.32, and the acceptance of the Plumbing, Heating and Air Conditioning, and Electrical bids. (Tabulation of bids appear in the minutes). The City Manager concurred with Mr. Baber's recommendation and advised Council that he had a resolution prepared for their consideration, which would accept the recommendation of the architects and authorize the mayor to execute the contracts.

PUBLIC HEARING - SOUTHEAST AREA ANNEXATION

2. A public hearing was held to consider the annexation of certain property into the Corporate Limits of the City of Asheville.

Mayor Wood opened the public hearing at 3:01 o'clock p. m.

The City Manager read the affidavit of publication which gave notice of the scheduling of the public hearing to be held on this date and at this time.

The City Manager was then requested to give a report on the services that are required by law to be provided to the area proposed for annexation. This report covered the laws applicable under which the proposed annexation is proceeding and the services to be extended in the areas of police, fire, water, sewer, garbage, and brush collection, street maintenance and street lighting. This was the same report adopted by Council at the May 18, 1972 meeting.

Mayor Wood then opened the hearing to comments from the public. Mr. Herbert Hyde, Attorney for Savles Biltmore Bleacheries, was the first speaker. He said that the company was opposed to the annexation since it would not provide better services than they now provide for themselves. However, he stated further that his company would always be good corporate citizens in whatever community it was located in. He favored a referendum on the issue.

Mr. Robert Willson, an attorney for the Oteen property owners, said that his clients opposed the proposed annexation and he appealed to Council for referendum. He asked that Council hold another meeting at a later day and at a more convenient hour so that more people could be heard. He presented Council with several signed petitions requesting a referendum. These petitions are on file in the City Clerk's office.

In the lengthy discussion the following residents of the proposed annexation were heard:

G. N. Koon - 1137 Tunnel Road
Wm. S. Allen - 37 Pleasant Ridge Drive
Robert Barnett 12 Looking Glass Lane
Wm. Cloud 14 Oteen Park Place
Clifford Holmes 25 Looking Glass Lane

ORDINANCE NO. _____ -AN ORDINANCE AMENDING SECTION 7-27 OF THE CODE OF THE CITY OF ASHEVILLE RELATING TO POOL ROOMS AND BILLIARD HALLS.

8. Consideration was given to the first reading of an ordinance amending Section 7-27 of the Code of the City of Asheville relating to Pool Rooms and Billiard Halls.

The City Manager read the ordinance and copies were distributed to each member of Council present.

In the discussion, it was brought out that the original application for permission to operate a pool hall specified that only one table would be used. However, once the district was established by this ordinance other applications could be filed to increase the number of tables, which could change the character of the building's usage.

Councilman Morris moved for the adoption of the ordinance, which was seconded by Councilman Dailey. On a voice vote, the count was a 3-3 tie with Councilmen Morris, Dailey and Colton voting for the ordinance and Mayor Wood, Vice-Mayor Marshall and Councilman Hoyle voting against.

Mayor Wood ruled that in the absence of a majority, the ordinance did not carry on the first reading.

CHARLES DENT - HOUSING

9. Mr. Charles Dent of 18 Chateau Place appeared before Council and asked them to give serious consideration to the future location of Housing Projects within the City. He was particularly interested in the one about to be constructed on Kenilworth Road at Aurora Drive. He said he was not against public housing but that this would make the fourth for the Kenilworth area. He felt that the locations should be equalized throughout the City. He cautioned that the continued practice of concentrating them in any one area would drive the residents of that area to the suburbs.

E. R. McCARTHY - ASHEVILLE LIBRARY MOVE.

Mr. E. R. McCarthy addressed Council on the subject of the proposed moving of the Asheville Library to the Pearlman Store site in the Haywood Building. He suggested that the research material be housed in the new Civic Center leaving this space for needed expansion.

ZIVKO MARJANOVIC - COUNCIL MEETINGS

Mr. Zivko Marjanovic, a retired writer who recently moved to Asheville, spoke to Council on various observations that he had made since taking up residency in the City. He spoke of the dull and boring procedures of a routine Council meeting and suggested that Council look toward the motto of accellerating Asheville.

Mayor Wood opened the public hearing at 5:03 o'clock p. m.

The City Manager read the affidavit of publication giving the notification of the public hearing to be held on this date and at this time.

Corporation Counsel Robert J. Robinson explained to Council that the readoption of the three ordinances to be considered was being done to assure the continued effectiveness of all ordinances which may be affected by Article 19 of Chapter 160A of the General Statutes of North Carolina.

Mayor Wood closed the public hearing at 5:05 o'clock p. m.

Edna Cloud	-	14 Oteen Park Place
John Jackson	-	40 Wagon Road
Elizabeth Nelson	-	8 Stevens Hill Road
Ray Evans	-	10 Birchwood Lane

Each speaker vigorously opposed the annexation on the grounds that the services proposed by the City were not needed and that the property owners would have to pay more in taxes than the benefits they would receive. A majority of them favored a referendum and an equal number appealed for a further hearing at a more convenient hour.

Half way through the discussion, Councilman Ochsenreiter moved that a further hearing be scheduled at a time convenient to all concerned. He asked for a point of personal privilege to poll the other members of Council and when Mayor Wood ruled that it was not within the scope of personal privilege, Councilman Ochsenreiter withdrew his motion.

Councilman Morris in an effort to counter some of the objections suggested that what was being said was, "Why should we pay for all these things when we are now getting them free." He asked them to think about all the benefits they had enjoyed over the years without paying for them, not just the new benefits they would receive.

Councilman Colton interjected that perhaps the City should not have financed an airport, libraries, civic center, or recreation for all to use.

Mayor Wood closed the public hearing at 4:52 o'clock p. m.

Councilman Ochsenreiter then moved that a special meeting to discuss the proposed annexation be held on Monday, June 5, 1972, at 8:00 o'clock p. m. in the auditorium of Bell School or any available meeting place.

This motion was seconded by Councilman Morris, and was carried unanimously.

Copies of the ordinance was distributed to each member of Council.

The City Manager read a memorandum from the Assistant City Manager that called attention to some minor variances in the plan for extending services into the proposed annexation area. These variances involved the length of the boundaries referred to in the plan and were discovered by using more precise data for making the calculations. The new calculations would correct the aggregate boundary from 71,325 feet to 71,283.56 feet, the length of the boundary coinciding with the present City Limits from 48,875 feet to 48,217.69 feet and the percentage of boundary coinciding with the City Limits to the aggregate boundary would change from 68.5% to 67.64%.

The City Manager requested permission to be excused to answer a long distance telephone call. In his absence Mayor Wood instructed the Corporation Counsel to read the annexation ordinance. During the reading, the City Manager returned to the Council Chamber.

The City Manager read a request from Wade Hall, President of Tour-O-Tel, Inc., requesting that Council reconsider creating a billiard hall district at 640 Merrimon Avenue. In his request Mr. Hall stipulated that in forming the district the number of tables be limited to three.

Mr. Hall made a brief statement in regard to the operation of the private club now being run in connection with the Tour-O-Tel. He said he was aware of some of the noise complaints from the neighbors in the area but that every effort was being made to alleviate the sources of these complaints.

Councilman Hoyle pointed out that the original application called for one table which he would favor but objected to the three tables.

Councilman Dailey requested that an ordinance creating the district, be prepared for Council's consideration and that it be so stipulated that only one table would be allowed.

The City Manager read the affidavit of publication, which set the time and place for the hearing.

Mr. Kmecza, Director of Planning, was called on to present the zoning plan.

Councilman Ochsenreiter seconded this motion which carried on a 5 - 1 vote with Councilman Dailey voting "no" and Mayor Wood not voting.

In discussing the letter the City Manager noted that there was a need for banking facilities at the airport and he recommended that the opportunity to lease this space not be limited to any particular bank and that the lease price be negotiated. The City Manager read a letter from Mr. Pete Feistman, President of Dwellings, Ltd., who requested a public hearing on the matter.

Absent: None

1. Approval of minutes of the July 6, 1972 meeting.

Upon motion of Councilman Dailey, seconded by Councilman Hoyle, the minutes of the July 6, 1972 meeting were approved as submitted.

ORDINANCE NO. 745 - AN ORDINANCE ADOPTING AND APPROPRIATING THE OPERATING BUDGET AND FIXING THE TAX RATE OF THE CITY OF ASHEVILLE FOR THE FISCAL YEAR 1972-73 (GENERAL FUND, DEBT SERVICE FUND, POWELL BILL FUND, AND MOTOR TRANSPORT FUND)

2. Consideration was given to Ordinance No. 745, an ordinance adopting and appropriating the operating budget and fixing the tax rate of the City of Asheville for the fiscal year 1972-73 (General Fund, Debt Service Fund, Powell Bill Fund, and Motor Transport Fund).

The City Manager read the text of the ordinance.

Mayor Wood requested Councilman Morris to read through the line item changes that were made in the original budget document recommended by the City Manager and which would be incorporated into the budget figures recited in the ordinance. These changes are referred to and made a part of these minutes as if fully set out herein. After Councilman Morris concluded, Mayor Wood and members of the Council made brief statements on the significance of the major additions and deletions.

In Land Management, Mayor Wood stated that the City would only operate Lake Julian as a recreation area through December 31, 1972. After this time, the city would maintain only a security force for the rest of the fiscal year.

Councilman Morris commented on the Western North Carolina Air Pollution Control appropriation, and stated that he felt this was again an example of double taxation and that it was Council's decision to fund this agency only through this fiscal year.

Mayor Wood explained that Council had accepted the City Manager's library recommendations, which did not make possible a move to a new location this year. The $30,000 previously provided in the last fiscal budget was left in the new budget for renovations and repairs to the present building, or any other purpose. However, none of these funds could be expended without prior approval of City Council.

Mayor Wood noted that approximately $40,000 was deleted from the Capital Outlay funds.

streets in the coming year.

BUDGET REQUEST FOR THE LIBRARY

5. Mr. Anthony Lord, Chairman of the Library Board, and Mr. Kenneth Brown, Library Director, appeared before Council to express their continued interest in the budget requests for moving the library from its present location to the proposed Haywood Street site. Mr. Lord stated that a previous appeal had been made to each councilman by letter and the purpose for their being at the meeting was to answer any further questions.

Councilman Morris discussed with Mr. Brown the economics of moving on a temporary basis versus the planning for a new building on a permanent location. Both Mr. Brown and Mr. Lord were doubtful if a satisfactory location could be picked at this time due to the unstable condition in the downtown area. However, they did feel that the Haywood Street site would be the best prospect.

E. M. McCARTHY - LIBRARY

Mr. E. M. McCarthy spoke in opposition to the proposed moving of the library to the Pearlman Building on Haywood Street. He described the building as not being suitable for a library.

Mrs. Ray Forrester and Mrs. M. S. Brott, who were also representing the petitioners for the resurfacing of Center and Brookshire Streets, discussed with Council the possibility of a tax increase for the next fiscal year. They appealed to Council to turn down the 12 cent increase recommended by the City Manager. They were assured by Council that the final decision on the tax rate had not been made. When confronted with statement that Council had promised not to raise taxes if the Civic Center Bonds were approved, Mayor Wood took the opportunity to clear up this point. He said to his knowledge no one who worked on the Civic Center bond issue campaign ever promised that taxes would not be raised at sometime in the future, except to say that the issuance of the bonds would not require a tax increase to pay off the indebtedness.

He also stated that it was said, that if the bonds were not approved, the City would still have to complete the building and this might possibly take a tax increase of 12¢ to 15¢ for a four or five year period.

Council applied 117,760 of that amount to the 1972-73 Debt Service Budget. The balance will be used in the coming fiscal year in an effort to minimize the peak years of Debt Service before the Refunding Debt is paid off in 1974-75.

Responding to an inquiry about salary reduction, Mayor Wood explained that the salaries listed in the changes were geared to the Classification and Pay Plan now under consideration by the City Council.

Mayor Wood asked for comments from the audience at which time Mr. E.R. McCarthy complimented the Council on their efforts to hold the line on the budget.

Upon motion of Councilman Colton, seconded by Councilman Ochsenreiter, Ordinance No. 745, on a roll call vote, unanimously passed on its first reading.

The City Manager read the resolution and advised Council that negotiations had been completed in connection with certain leases at the Asheville Airport. These included the gift shop, car rental, baggage room, ticket counter space, and office space. He said that Section 7 of the Charter Appendix- Related Laws of the City of Asheville required that the leases be published and that this resolution would direct the City Clerk to publish the notice and would authorize the Mayor to execute the leases.

8. Consideration was given to a permit for the erection of a temporary sign within 200 feet of the Crosstown Expressway, requested by Clyde Savings and Loan Association.

The City Manager read a memorandum from the Building Inspector giving the size and location of the proposed signs.

Councilman Colton noted that since these signs were to be only temporary during the construction stages for the new Clyde Savings and Loan Association building, he did not see the necessity for following the usual procedure of referring the matter to the Planning and Zoning Commission, and felt Council could take appropriate action at this meeting.

Councilman Ochsenreiter moved that the sign permit be granted as requested. This motion was seconded by Councilman Colton and was unanimously adopted.

Copies of the ordinance were distributed to each member of Council.

Mrs. Soya Fredrick, representing the League of Women Voters, told Council that her studies had revealed that the present library quarters were inadequate. She suggested that reserve funds be included in the present budget to assist in the library move, and that a citizens committee be formed to work out some solution to the inadequate location.

Councilman Morris noted that he did not think it was economically feasible to relocate the library on a temporary basis, and he advocated a new central facility financed with a countywide bond issue.

Mayor Wood endorsed Mrs. Fredrick's suggestion for a study to determine the best location for the library. He also suggested that the pattern of use, by both the city and county residents, be investigated. He said this would determine who should assume the greater portion of the cost.

On a roll call vote, Ordinance No. 745 passed unanimously on its second reading.

EMERGENCY ELECTRICAL WORK IN THE CITY HALL BUILDING

8. Consideration was given to the approval of emergency electrical improvements to the City Hall's electrical system.

The City Manager explained to Council that the overloaded condition of the electrical circuits in the City Hall had made it necessary to curtail some operations and that a serious risk of fire existed. He said that considerable improvements would be necessary within the next year, but that this request for emergency procedures would act as a "stop gap" until such time as specifications could be drawn and the remainder of the work let to contract. He advised that several firms had been asked to submit proposals, but that the only bid received was from M. B. Haynes Electrical Company in the amount of $7,361.00. He recommended the acceptance of this bid.

Councilman Morris moved that due to the emergency situation the bid of $7,361.00 submitted by M. B. Haynes Electric Company be accepted. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

Mayor
Members of City Council

Gentlemen:

On Thursday afternoon, July 20, after 5 o'clock p. m., three members of the City Council met with me to request my resignation as City Manager. In that meeting it was stressed that only eight people knew of Council's decision.

It was made clear to me that it was the hope of the Council that I could successfully seek employment elsewhere by early Fall, and that we would discuss how and when to make it public at a later time. At the conclusion of the meeting that approach was stressed again.

Miss Valerie Owen, Chairman of the ABCYC, made the following recommendations; Rev. W. A. Eason, Mrs. Don Williams, Mrs. E. P. Foster, Mrs. Betty Bryson, and Mrs. John Suberati.

The City Manager read the resolution making these appointments.

Richard N. Wood
MAYOR

William S. Valentine, Jr.
CITY CLERK

Subsequently, on Friday, July 21, some member of the Council, apparently seeking to take credit for firing me as City Manager, leaked or caused it to be leaked to the news media that I had been fired. Later that morning I met with Mayor Wood, members of my staff, and my wife to formalize a letter of resignation, which was released to the press.

Before I officially submit my resignation as a matter of record I would like to ask the Council formally in this open public meeting to act to request my resignation. This seems only fair as someone broke the silence the committee indicated had been agreed to by all the members of Council.

I am assuming that neither the Mayor nor Mssrs. Colton and Morris, who informed me of Council's decision to request my resignation, related it to the press, so I would assume that someone else who wished the public credit for firing me should make the motion.

My letter is available for submission if it is the will of the Council publicly to adopt a motion requesting it.

Councilman Colton moved that Council formally request Mr. Horton's resignation. This motion was seconded by Councilman Hoyle and carried unanimously.

The City Manager then submitted his letter of resignation.

Councilman Ochsenreiter moved to accept Mr. Horton's resignation. This motion was seconded by Vice-Mayor Marshall and carried unanimously.

Councilman Ochsenreiter moved that the request be approved. This motion was seconded by Councilman Dailey and carried unanimously.

Mr. George Macatee, Jr., representing the Asheville Junior Chamber of Commerce, asked permission to read a resolution passed by the Jaycees in which they supported the selection of a trained professional City Manager who has no ties to a particular political party.

GEORGE COGGINS - WESTGATE CORPORATION REQUEST FOR BUILDING PERMIT

Mr. George Coggins, President of Westgate Corporation, read a prepared statement in which he advised Council that plans were complete for the construction of a 60 x 120 free standing building on Lot # 1, Sheet 3, Ward 6, as shown on the original plan of Westgate Shopping Center. He said that Mr. J. E. Johnson, the Building Inspector, had denied the building permit, because, as Mr. Johnson, interpreted the zoning ordinance, Westgate would be constructing more than one building on a single lot, and therefore would have to be granted a permit by Council under the Group Development section. Mr. Coggins said he did not agree with this interpretation but in the interest of time he would like to request that his application be processed throught the Planning and Zoning Commission for group development plan approval.

Mayor Wood instructed the City Clerk to transmit the plans to the Planning and Zoning Commission with the request for a recommendation to Council on the Group Development Plan. He further instructed the Corporation Counsel to consult with the principals and their legal counsels in an effort to expedite some satisfactory solution. The City Manager read a memorandum from J. R. McMahan, Purchasing Agent, recommending the acceptance of the Asheville Army Store's low bid of $3,570.84.

Council discussed at length the advisability of purchasing baseball equipment this late in the season with the possibility that the baseball program might not be funded next year. Ray Kisiah, Director of Parks and Recreation, explained that the funds for uniforms were available this year but would not be included in next years program, but the uniforms purchased now would be used next year.

CHARLES STREET - REPORT OF CITY MANAGER

11. City Manager Ernest J. Ward reported to Council that Mr. Philip C. Cocke, Director of Public Works had a report concerning a petition for the construction of a cul-de-sac on Charles Street presented at last weeks Council meeting.

Mr. Cocke stated that he would not recommend the construction of a cul-de-sac on Charles Street due to traffic on Charles Street did not justify construction of a cul-de-sac, but the city could build at a minimum cost a "J-Hole" that cars could pull into to turn around.

Mayor Wood directed Mr. Cocke to confer with Mr. Ward, and Assistant City Manager William F. Wolcott the most feasible way to make a turn around on Charles Street.

ZONING - RECOMMENDATION FROM THE PLANNING AND ZONING COMMISSION REGARDING REZONING OF PROPERTY IN THE GROVE PARK AREA.

9. City Manager Ernest J. Ward, Jr. read a letter of recommendation from the Planning and Zoning Commission recommending that the Zoning Ordinance be amended by deleting the words "parking lots" as a permitted use in Section 3, RA-8 Residential District, Paragraph A, Subparagraph 6 and recommended that the property on Ward 2, Sheet 11, located on Charlotte Street, Evelyn Place, and Murdock Avenue, be rezoned from RA-8 Residential District to RA-10 Residential District.

Mayor Wood called on Nicholas Kmecza, Planning Director, who stated that all residential areas permitted parking lots, which would allow commercial parking lots in residential zones and by deleting the words "parking lots" as a permitted use in the RA-8 Residential District this would prohibit commercial parking lots in all residential zones.

Councilman Colton stated that he would abstain from any vote or discussion on the matter, due to this being the area in which he lives.

Upon motion of Councilman Dailey, seconded by Vice-Mayor Marshall, it was moved that a public hearing, to be scheduled for September 28, 1972, be advertised at the expense of the petitioner. This motion carried unanimously, with Councilman Colton not voting.

SHILOH ROAD - FIRE HYDRANTS - REPORT FROM CITY MANAGER

10. City Manager Ernest J. Ward reported to Council that he had received a letter from Mr. R. R. Buirgy, Water Engineer, concerning a request from last weeks meeting that fire hydrants be put on Shiloh Road. Mr. Ward read the letter which stated that approximately 1,675 feet of 6-inch water line and two fire hydrants would be required to protect the Shiloh Road area. The estimated cost of the materials only for the water line and hydrants is $4,800.00.

Mayor Wood asked that the City Manager look into the matter as to cost and availability of funds and to check with the Planning and Zoning Commission as to the future annexation of this property and to report back to Council at a later date.

Chief P. N. Ball of the Fire Department stated that hydrants are sparsley scattered and that pumpers are used in this area, however hydrants would help.

RESOLUTION APPROVING AMENDMENT TO COOPERATION AGREEMENT FOR THE POLICE AIDES PROJECT OF THE SECOND ACTION YEAR COMPREHENSIVE CITY DEMONSTRATION PROGRAM

4. Consideration was given to a resolution approving amendment to cooperation agreement for the Police Aides Project of the Second Action Year Comprehensive City Demonstration Program.

The City Manager read the resolution.

Mr. Logan Delany, Executive Director of the Model Cities Agency, stated that by continuing the Police Aides Advisory Committee to remain active in a monitoring/advisory role for the life of the program, instead of just for the six weeks orientation period, as provided for in the Cooperation Agreement, it would provide better relations between the Community and the Police Department and also insure the strength of the program. Mr. Delany stated that this amendment was initiated by the Crime and Delinquency Task Force.

Chief J. C. Hall of the Police Department stated that he was in favor of the program, however, he was having various problems with the aides and he did not want the Advisory Committee or the Crime and Delinquency Task Force to be a back-up for the aides, if discharging or disciplinary action were necessary. Chief Hall stated that in the cooperation agreement he had agreed to the 6 weeks orientation period with the committee, but the Police Department had rules and regulations to follow and the Police Aides had been informed of these rules and rulations and were expected to follow them. Chief Hall said that it was his understanding that under the Cooperation Agreement, after the 6 weeks orientation period, he would have control of the aides.

After a lengthy discussion, Mayor Wood directed the City Clerk to refer the resolution back to the Model Cities Commission for further clarification by the Commission as to what they envision the continuing monitoring/advisory role of the Advisory Committee to be for the proposed amendment under the terms of the contract.

The City Manager concurred in the Purchasing Agent's recommendation.

Councilman Morris moved to accept the recommendation of the Purchasing Agent and to award the contract to the International Salt Company in the amount of $15.31 per ton or a total of $3,827.50. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

The tabulation of the bids are as follows:

The City Manager read the affidavit of publication setting the time and date of the public hearing.

Mr. J. E. Johnson, Housing Officer, described the condition of the dwelling at 38 Jefferson Drive as being partially demolished and unsafe and dangerous. He further stated that there had been no evidence of any work being done toward the final demolition and cleanup. However, he said the owners of the building at 37-39 Mountain Street had obtained a permit to repair this building and were in the process of making these repairs. He said this work was progressing satisfactorily and he would like to request that the building at 37-39 Mountain Street be deleted from the demolition ordinance now under consideration.

On being questioned by Council, Corporation Counsel Robert J. Robinson, advised that if it was determined at a later date that work did not progress satisfactorily, then Council should readvertise for a public hearing and then pass a separate ordinance ordering the demolition.

Mr. Robinson noted that the Carolina Power and Light Company could cancel the lease anytime after they are notified. Mr. Robinson suggested that the City Manager write a letter to the Carolina Power and Light Company notifying them that the City of Asheville would not operate the recreation area at Lake Julian after December 31, 1972.

MAYOR

William D. Ballentine
CITY CLERK

The City Manager read the resolution.

Logan Delany, Executive Director of Model Cities Agency, explained to Council that this request to move the Neighborhood Facilities Program from Herring Street School to Livingston Street School was being made because the Livingston Street School location was more centrally located and would serve a greater number of people. He said the building was more suitable for the purpose and since it was in the East Riverside Urban Redevelopment area it would be eligible for matching funds from the City of Asheville and the Asheville Housing Authority, which would permit a larger facility and better services. Mr. Ray Wheeling, Director of the Housing Authority, said that his agency had been in contact with the Model Cities Agency and endorsed the proposed move. Mr. Ray Kisiah, Director of the Parks and Recreation Department, stated that his department would be the delegate agency in the program and would be responsible for much of the activities. He said his advisory board endorsed the joint effort of the various agencies and supported the move.

Mayor Wood pointed out that the school board had declared this property as surplus and monies received from the sale would benefit the school program.

Mr. Lonnie Burton, Director of the Opportunity Corporation, who now occupy the building said that he was aware of the need for the program, which his agency endorsed, but that he was not certain that the building could be converted to a first class facility.

Upon motion of Councilman Dailey, seconded by Councilman Colton, Resolution No. 72-102 was unanimously adopted.

6. Consideration was given to a resolution authorizing amendment to cooperation agreement for Police Aides Project of the Second Action Year Comprehensive City Demonstration Program.

Mayor Wood asked the City Manager to read the original resolution which was considered but not adopted at the September 14, 1972 meeting. He then asked him to read that portion of the alternate resolution, now under consideration, which amended the original resolution.

The City Manager advised Council that he had during the past week been in consultation with all parties concerned and it was his opinion that the original resolution did not intend that the Advisory Committee should have any jurisdiction over the disciplinary of the men assigned to the Police Aides. However, he said this point was clarified in the alternate resolution by the addition of the words "but said committee shall have no advisory or reviewing function with reference to the discipline or discharge of particular participants in said program." He said this would be satisfactory to all concerned.

Mrs. Dicie Jackson, member of Model Cities Commission, voiced her concern over the use of police aides in some hazardous assignments.

The City Manager read the resolution.

Mr. Logan Delany, Executive Director of the Model Cities Agency, explained to Council that this was a pilot program that was urgently needed in the community. He further stated that the testing would be supervised by the Buncombe County Health Department and the Buncombe County Medical Association; that Sickle Cell Anemia, Inc. would be the operating agency and would be responsible for the disbursement of the $6,000.00 budgeted for this program.

Mrs. Dicie Jackson, a member of the Model Cities Commission, spoke in support of the resolution. She emphasized the severity of the disease and the need for the proposed screening program. She felt that there was a good possibility that in the future more funds would be available so that program could be continued.

Upon motion of Councilman Morris, seconded by Councilman Dailey, Resolution No. 72-101 was unanimously adopted.

SCHEDULING OF PUBLIC HEARING ON REORGANIZATION OF PLANNING AND ZONING COMMISSION

7. Mr. Kmecza, Director of the Planning Department, advised Council that his department had completed the necessary work to provide extra-territorial zoning in the one mile perimeter of the city limits. However, he stated that before this could be implemented the law required that the membership of the Planning and Zoning Commission would have to be revised to provide representation from this area. This he said would have to be done by amending the Zoning Ordinance, the first step being the scheduling of a public hearing concerning this revision.

Mr. Robinson, Corporation Counsel, advised that in accordance with the law October 12, 1972 would be the earliest date that a public hearing could be scheduled.

Councilman Colton moved that the public hearing be scheduled for this date. Councilman Hoyle seconded this motion and it was carried unanimously.

Mayor Wood instructed the City Clerk to advertise the public hearing for October 12, 1972.

RESOLUTION NO. 72-104 - RESOLUTION AUTHORIZING CITY MANAGER TO NEGOTIATE A CONTRACT WITH A CONSULTANT FOR THE PREPARATION OF AN OPERATIONS MANUAL NECESSARY FOR SUBMISSION TO THE FEDERAL AERONAUTICS ADMINISTRATION FOR AIRPORT CERTIFICATION

8. Consideration was given to a resolution authorizing City Manager to negotiate a contract with a consultant for the preparation of an operations manual necessary for submission to the Federal Aeronautics Administration for Airport Certification.

The City Manager advised Council that the FAA is requiring all airports which are served by regularly scheduled certified air lines to conform with FAA Part 139 certification by May, 1973. In order to comply with this requirement Asheville must apply to the FAA no later than November 18, 1972 and the application must be accompanied by an updated airport operations manual. Due to the techinal nature of the manual he said it would be necessary to employ consultants to assist in its preparation. He said that the resolution under consideration would authorize him to negotiate a contract with the consultants in order to accomplish the work.

Councilman Dailey moved for the adoption of the resolution. This motion was seconded by Councilman Ochsenreiter and the resolution carried unanimously.

Complete text of Resolution No. 72-104 will be found in Resolution Book No. 6 at page 265.

162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 210, 216, and 216-1/2 as shown on the Buncombe County Tax Maps.

Mr. Glen Kelly, an attorney, appeared on behalf of the property owners in the affected area. He told Council that the real concern of his clients was the possibility, under the present zoning, that the owner of the property at the corner of Charlotte Street and Edwin Place would construct some type of business on one lot, zoned Neighborhood Trading, using two adjacent lots, zoned Residential, for parking. This he said would encroach on the residential property on Edwin Place and thus deteriorate this whole area. He said once you allow this to begin the creeping action would continue through the entire section unless adequate zoning was established to prevent it. He pointed out the present traffic congestion at the corner of Charlotte Street and Edwin Place and said that further business development would increase this hazard.

Approximately 40 or 50 residents of the area attended the meeting, and the following spoke in favor of both the deletion of the "parking lots" from the zoning ordinance and the rezoning. They gave as their principal reasons the depreciation of property values if a commercial encroachment were to extend into this residential area and the increase in traffic which would be generated by such a commercial enterprise.

Mrs. Landon Roberts	47 Evelyn Place
Mr. Early Lee	127 Edwin Place
Mrs. Alice S. Wicker	69 Edwin Place
Mrs. Talber	354 Kimberly Avenue
Mr. Robert Gelder	74 Edwin Place
Mrs. William Young	103 Edwin Place
Mr. Ray Donahoe	64 Edwin Place
Mr. Nixon	
Mrs. Helen Reed	
Mrs. Sharon Miller	221 Kimberly Avenue
Mr. Robert Baker	42 Edwin Place
Mr. John Acee	63 Macon Avenue
Mr. & Mrs. F. A. Ketterson	21 Edwin Place

Mr. William Morris representing the Trinity Episcopal Church

At the conclusion of their presentations Mr. Kelly requested that in considering the ordinances Council suspend the rules and pass the ordinance on all three readings at this meeting.

Mr. Philip Carson, an attorney representing the owner of the property at the corner of Edwin Place and Charlotte Street, said he agreed in principal with proponents of the proposed rezoning but he did not agree that the proposed methods was the proper vehicle to accomplish it. He argued that to rezone this property to RA-9 would place a large percentage of the property in a non-conforming use. He also stated that to delete parking as a permitted use in the residential zone would also place many businesses in the City in a non-conforming use and perhaps make them unsalable. Further he stated, that since it was his understanding that the entire zoning ordinance was in the process of being re-written, he would like to request that Council withhold action on any changes until the new ordinance is presented.

RESOLUTION NO. 72-106 - RESOLUTION AUTHORIZING MAYOR TO EXECUTE AGREEMENT FOR LOCATION OF A DIRECTIONAL SIGNBOARD ON SOUTHERN RAILWAY COMPANY PROPERTY.

6. Consideration was given to Resolution No. 72-106, a resolution authorizing Mayor to execute agreement for location of a directional signboard on Southern Railway Company property.

Upon motion by Councilman Morris, seconded by Vice-Mayor Marshall, Resolution No. 72-106 was unanimously adopted.

Complete text of Resolution No. 72-106 will be found in Resolution Book No. 6 at page 267.

He said his client had no intention of doing anything with his property on the corner of Charlotte and Edwin Place that would downgrade this area.

When asked by Council what the effect of changing the zoning from RA-8 to RA-9 would have on this area, Mr. Johnson, the building inspector, stated that a certain number of properties would be placed in a non-conforming use. He said there were several homes that had been converted from single family to 2-3 and 4 family occupancy. This he said would not be permitted under RA-9 zoning.

Mayor Wood asked if anyone in the audience had knowledge of more than one family living in a single residence. Several persons indicated that they already had 3 and 4 apartments in their homes at the present time.

Mayor Wood closed the public hearing at 4:08 o'clock p. m.

Mayor Wood requested that the City Manager read the ordinance amending Section 3, RA-8 Residential District, Paragraph A, Subparagraph 6, of Ordinance No. 322 of the City of Asheville, which would delete the words "parking lots" from this section. He also asked him to read the ordinance amending Ordinance No. 322, known as "An Ordinance providing for the Zoning of the City of Asheville" as amended, which would rezone the area in question from RA-8 Residential to RA-9 Residential.

After both ordinances had been read, Councilman Morris moved for the adoption of the ordinance amending Section 3, RA-8 Residential District, Paragraph A, Subparagraph 6, of Ordinance No. 322. This motion was seconded by Councilman Colton.

Councilman Colton commented that he favored the ordinance as it applies to the entire city and not just this one area. He said he couldn't understand how this encroachment situation had been allowed to creep into the zoning ordinance.

On a roll call vote Ordinance No. 751 passed unanimously on its first reading.

Mayor Wood then called for a motion for adoption of the ordinance that would rezone the area from RA-8 Residential to RA-9. Not receiving one he declared that "in the absence of a motion the ordinance does not carry on the first reading."

They also heard from Mr. Marion Hough, Southeastern Regional Manager for the Crane Company, who were the low bidders, and Mr. Harold Washburn, Rockwell Manufacturing Company representative. "That the schedule of fees for the deposit of solid waste on the City of Asheville's landfills, as set forth in Resolution No. 72-70, be suspended, pending further action by Council, for those citizens of Asheville who transport solid waste to the landfills which would normally be picked up by the City's Sanitation Department."

However, after the bids were opened Paverite, Inc. agreed in writing to accept the $50.00 a day penalty clause.

The City Manager read the resolution.

Mr. John Shuford, attorney for T. W. Powers, the property owner making the request, identified the property and asked Council for their favorable consideration.

E. R. McCarthy, speaking as an interested citizen, questioned whether or not the property comprising the street right of way to be closed had any value to the city. He felt that the City should benefit from the closing.

Mayor Wood announced that he had anticipated some confusion if Council increased the membership on the commission from 5 to 7 members with full voting rights and then Council decided not to exercise its extraterritorial jurisdiction. He said for this reason he had instructed the Corporation Counsel to prepare two ordinances for consideration. One to increase the membership from 5 to 7 members with the new members voting only on matters pertaining to the extraterritorial area. The alternate ordinance being similiar except that all members would have full voting rights on all matters.

He asked the City Manager to read both ordinances.

Councilman Colton moved for the adoption of the alternate ordinance which would give all members full voting rights. This motion was seconded by Councilman Morris. On a roll call vote Ordinance No. 752 carried by a 6 - 0 vote on its first reading.

Mayor Wood instructed the Corporation Counsel to review the ordinance with reference to the tenure of office of the extraterritorial appointees in case the Council decided not to adopt perimeter zoning. He also asked him to research the use of the words "City Planning Commission" to insure that Council was not changing the name.

PUBLIC HEARING - MEMBERSHIP ON THE PLANNING AND ZONING COMMISSION

ORDINANCE NO. 752 - AN ORDINANCE ENLARGING MEMBERSHIP OF THE "CITY PLANNING COMMISSION" FROM FIVE MEMBERS TO SEVEN MEMBERS, AND PROVIDING FOR APPOINTMENT OF THE TWO ADDITIONAL MEMBERS BY BUNCOMBE COUNTY BOARD OF COMMISSIONERS PURSUANT TO N. C. G. S. 160A-362.

2. A public hearing was held to consider an ordinance providing for an increase in the membership on the Planning and Zoning Commission preliminary to the consideration of exercising extraterritorial zoning or subdivision jurisdiction on the perimeter of the City of Asheville.

Mayor Wood opened the public hearing at 3:02 o'clock p. m.

The City Manager read the affidavit of publication which set the time and date for the hearing.

Mr. Kmecza, Planning Director, explained to Council that under the state statutes, before they could exercise jurisdiction over the extraterritorial area, representation on the board would have to be provided. The ordinance before them at the present time increasing the number of members on the Planning and Zoning Commission from 5 to 7 members would provide the vacancies which would be filled by residents from the outside area. Having done this Council could then consider taking the necessary action to exercise extraterritorial zoning jurisdiction. Mr. Kmecza said that if Council decided to take action on the proposed ordinance he would recommend that the new members be given full voting privileges, both on matters inside and outside of the city. A discussion followed on the question of the voting privileges, as well as the action that would have to be taken if Council did not elect to exercise extraterritorial jurisdiction.

At this point in the hearing, Mayor Wood granted Mr. James W. Davis, 64 Springvale Road, permission to interupt the hearing to make a request that the weeds on the right of way of Springvale Road be cleared, and that a street light be erected at the intersection of Springvale Road and Dogwood Lane.

Mayor Wood closed the hearing at 3:17 o'clock p. m.

The City Manager asked that he be given time to look into the parking and cul-de-sac request and report back at the next meeting.

Mayor Wood asked the Corporation Counsel to consult with Mr. Kmecza and Mr. Johnson, the building inspector, to see if he concurs that no zoning ordinances have been violated in respect to the subdividing and construction of the small building off Crockett Avenue.

RECESS

Mayor Wood called for a short recess at 4:20 o'clock p. m. and reconvened the meeting at 4:27 o'clock p. m.

BID - TRAILER MOUNTED LEAF LOADER

4. Reconsideration was given to a bid received October 3, 1972 for (1) trailer mounted leaf loader.

The City Manager read a memorandum from the Purchasing Agent advising him that the Sanco Corporation, after being awarded the contract to furnish a trailer mounted leaf loader for the Sanitary Department, had informed him that they could not meet the specifications. In lieu of this development the Purchasing Agent recommended that the contract be awarded to the next lowest bidder, Western Carolina Tractor and Equipment Company in the amount of $2,894.30.

The City Manager concurred in this recommendation and asked Council to reconsider the bids.

Councilman Morris moved that the action taken by Council on October 5, 1972, awarding Sanco Corporation the contract to furnish the leaf loader at the bid price of $2,654.80, be rescinded and that the next low bidder, Western Carolina Tractor and Equipment Company be awarded the contract in the amount of $2,894.30.

This motion was seconded by Vice-Mayor Marshall and carried unanimously.

REPORT ON PETITION OF REDWOOD FOREST

5. Consideration was given to a report from the Planning and Zoning Commission regarding a petition from residents of Redwood Forest.

The City Manager read a letter from the Planning and Zoning Commission that recommended acceptance of the staff report which they forwarded to City Council for information. The City Manager also read this report.

Mr. Kmecza, Director of the Metropolitan Planning Commission, commenting on the staff report said that the residents of the Redwood Forest development were concerned over the existing and proposed commercial development on U. S. 70 and 74, encroaching on the residential area that lies between. He said that the residents had originally petitioned for rezoning but had withdrawn their petition in favor of requesting increased set backs and buffer zones between the residential and commercial properties and prohibiting commercial access roads into Crockett Avenue and Beechwood Road. He said the staff investigation did not disclose any quick remedies for the concerns of the residential property owners.

Mr. John Ulp, 7 Oakridge Road; Mr. Jack Margaret, 4 Oakridge Road, and Mrs. Ned Morris, 3 Oakridge Road, all residents of the area said that they were concerned with the traffic hazard that would be created if a commercial enterprise were allowed an access off of Crockett Road. They also requested that some attention be given to the construction of a cul-de-sac at the dead end of Crockett Avenue. They said it would eliminate the practice of trucks and private vehicles turning around in private driveways.

In the discussion that followed it was concluded that some of the problems might be solved through the dead restrictions.

Mayor Wood requested that the minutes reflect that the report had been officially received. He said that copies had been delivered to Council earlier in the week and that he thought it was a good report. In summary, he said, it indicates that at some location a parking facility is economically feasible, either by private enterprise or as a public venture.

He said that in recent weeks their had been some discussion regarding free on street parking, but that it did not seem advisable to discuss that issue until this parking study was in hand. He instructed the City Manager to contact Wilbur Smith and Associates and ask for their comments as to the effect free on street parking would have on the Parking Study.

T. P. McCARTHY - REVENUE SHARING

Mr. McCarthy, commenting in regard to the Revenue Sharing Program, asked if the meetings to be held in connection with this program would be open to the public. Mayor Wood advised him that even though he had said that the sub committeee meetings should be "off the record," so that each committee would operate independently without being influenced by the other, that the meetings would be opened to the public as well as the press.

Supreme Court had ruled that such a tax was constitutional, he felt that it was time for Council to consider this as a source of revenue. City School Board. He said that the City Council acted on this petition and agreed to cancel the lease. However, he said this was never cancelled of record and the action being considered at this time was necessary to clear the title.

PARKING LOT-FORMERLY SEARS ROEBUCK PARKING LOT - REPORT OF CITY MANAGER

The City Manager informed the Council that Mr. Harry Blomberg had contacted him by telephone and requested that he advise Council of his objections to the city operating a parking lot on the Sear's property, in competition to a lot he owns across the street. He said that Mr. Blomberg claimed that his lot was barely making expenses.

Mayor Wood explained that it was the intention of the city to operate the lot on a month to month basis. He said that it was being opened at the request of some of the uptown merchants who expressed a need for additional parking, especially during the Christmas season. He said every effort was being made to keep the parking rates in line with those of other lots in the vicinity.

WESTGATE CORPORATION - REPORT OF CITY MANAGER

The City Manager read a letter he received from Mr. Donald Heet, President of Bon Marche, Inc., who objected to the Westgate Corporation building additional buildings on their site and decreasing the number of parking spaces. He claimed this was in violation to their lease and he felt Council should prevent Westgate from future construction. He said he was bringing this before Council as a matter of record. The City Manager recommended that a copy of the letter be sent to the Asheville Buncombe County Planning Commission.

J. E. Johnson, Building Inspector, informed Council that the Westgate Corporation building plans met the required zoning regulation and that his department could not refuse the building permit. He said that the removal of certain amusement rides would provide the necessary additional parking.

Mayor Wood instructed the City Manager that in replying to Mr. Heet's letter to advise him that it was the opinion of the Corporation Counsel that the terms of his lease were not subject to action by the Council, that the construction in progress was approved under the group development plan, subject to the developer furnishing sufficient parking and that the building inspection department would inspect in this regard.

The City Manager read the affidavit of publication.

Mr. Kenneth Lee, attorney for Mrs. White appeared in her behalf. He presented Council with a petition which outlined in detail the petitioners reasons for requesting the rezoning. In review, Mr. Lee stated that the property did not lend itself to residential development; that most of the adjoining property was either business or commercial; that the petitioner had owned the property and paid taxes on it for 18 years; and that unless it was rezoned she would have very little hope of receiving any return in the future. He said that failure of Council to rezone the property would deny the owner reasonable use of it.

Mr. Kmecza, Planning Director, reported that the Planning and Zoning Commission recommended that the request be denied. He said the reasons for this decision were that Mill Creek forms a natural boundry between the petitioners property and the Roadside Business on Patton Avenue; that Louisiana Avenue with only a 24 foot pavement was too congested for the introduction of commercial uses; that to extend the Roadside Business zone to include these lots would expand commercial activity to Louisiana Avenue, whereas it is presently oriented to Patton Avenue; and that the property in question does not touch the Roadside Business District at any point and to rezone it would be spot zoning.

Mayor Wood closed the public hearing at 3:42 o'clock p. m.

Councilman Colton called attention to similiar requests that had been turned down. He cited Charlotte Street-Edwin Place as one recent example.

Mayor Wood said that he felt the rezoning of several lots east of Mrs. White's property from residential to Roadside Business made matters worse for Mrs. White.

Mayor Wood requested the City Manager to read the prepared ordinance. Vice-Mayor Marshall moved for the adoption which was seconded by Councilman Dailey.

On a roll call vote of 5-2, Ordinance No. 754 was passed on its first reading.

RESOLUTION NO. 72-125 - A RESOLUTION AUTHORIZING MAYOR TO EXECUTE RIGHT OF WAY ENCROACHMENT AGREEMENT WITH THE NORTH CAROLINA STATE HIGHWAY COMMISSION

4. Consideration was given to a resolution authorizing Mayor to execute right of way encroachment agreement with the North Carolina State Highway Commission.

However, after consultation with the various department heads it was determined that the 2 watt power source specified, and on which bids were received, was not sufficient for use of other departments. He therefore recommended that all bids be rejected and that the bid request be re-advertised specifying a 5 watt power source.

Corporation Counsel Robinson was asked by Mayor Wood for his opinion of the legality of charging the property owner for the property that the City would be giving up. Mr. Robinson said that the statutes did not prescribe any means that this could be done. He said that statutes had been followed precisely in the closing of the alley. He further stated that when he filed the order with the Register of Deeds he would also notify the supervisor of the Board of Tax Supervision.

Mr. E. R. McCarthy again suggested to Council that Council establish a precedent by making the petitioners who wish to close alleys pay the City a reasonable sum for the property he would gain.

Mrs. Robert Kirby, 122 Louisiana Avenue, presented a petition signed by approximately 20 individuals, protesting the rezoning. She objected strongly to business creeping into the residential area.

Kenneth Lee, attorney for Mrs. White, said he had very little to add to what he had said at the previous public hearing, except to repeat that the property was of little value as residential property.

The City Manager reported that as of November 15, 1972 the traffic count on Louisiana Avenue showed a volume of 9,163 vehicles in a 24 hour period. Also, the latest count furnished by the State Highway Commission showed a ADT of 33,800 on Patton Avenue near Louisiana Avenue.

Mayor Wood called the meeting to order and asked the City Clerk to read the notice calling for the special meeting. L. Coleman Company Group Development Plan, from December 7, 1972 to November 30, 1972.

Mr. Richard L. Coleman, Jr., representing the R. L. Coleman Company, advised Council that his company had contracted to consstruct a building on the property under consideration. He said the completion date for this building had been set for the middle of February and in order to meet this commitment he would need all the time he could get. For this reason he was requesting that the date for the public hearing be changed from December 7, 1972 to November 30, 1972.

Councilman Colton moved that the date for the public hearing on the R. L. Coleman Group Development be changed from December 7, 1972 to November 30, 1972. This motion was seconded by Councilman Ochsenreiter and carried unanimously. It was agreed that the expense of the advertisement would be at the expense of the R. L. Coleman Company.

Mayor Wood informed Council that he had a request from the Asheville Merchants Association, that they be allowed to mask the parking meters and give their customers free parking on November 24th and 25th, the Friday and Saturday after Thanksgiving. He said he was aware that no formal action could be taken until Thursdays regular meeting, but he asked if anyone had any objections to his advising the Merchants Association that they could expect approval at that time. He said this would give the merchants a few extra days to proceed with their advertising program.

No other matters were taken up and Mayor Wood declared the meeting adjourned.

CITY MANAGER - REPORT ON IMPROVEMENTS AT AIRPORT

8. The City Manager reported that he had met with the Region B Planning Commission in which the improvements to the Asheville Airport was brought up for discussion. He said it was proposed that the 4.5 million dollar improvement program, previously submitted, could be financed by 50% of FAA funds, 1.3 million dollars by Appalachian Regional Commission funds and approximately $900,000 local funds. He said that there is now available about 3 million dollars in Appalachian funds for airport improvements, however, individual applications are restricted to not more than $2 million dollars. The Region B Planning Commission feels that this is the best opportunity the City would have to be approved for these funds and that it would only be available no longer than it would take to prepare an application and present it for approval. The local funds, as well as the project application being a matter for Council to take under consideration. He said in discussing the local funding he would also like to report his meeting the past week with representatives of Piedmont, United and Delta Air Lines regarding the passenger boarding tax that he proposed at the last meeting. He said the airline spokesman informed him that according to the airline leases the City would be restricted from imposing this tax. He said he has consulted the Corporation Counsel on the matter and asked Mr. Robinson to give Council his opinion. Mr. Robinson said that the airlines leases did contain a paragraph that would prohibit the boarding tax and he suggested negotiating with the airlines in view of their waiving this restriction. The City Manager said that his recommendation on the airport improvements hinged on being able to fund the project with the passenger boarding tax.

Councilman Morris pointed out that the entire $900,000 did not necessarily have to come from the city but that the regional counties could be asked to participate.

Mr. Philip Cocke, Director of Public Works, informed Council that he had been advised by the Division Engineer of the North Carolina State Highway Commission, that serious consideration was being given to a plan to extend Woodfin Street up College Park Place, crossing the proposed Charlotte Street extension and tieing into N. C. 694 at Pine Street. He said if this plan materialized the right of way of College Park Place would be needed for the proposed new street. He asked Council to defer action on the closing of College Park Place until a definite decision can be obtained from the Highway Commission.

Councilman Morris moved that any consideration of closing College Street and College Park Place be tabled. This motion was seconded by Councilman Hoyle and carried unanimously.

He moved to defer action on the first reading of the ordinance until the next meeting. Councilman Ochsenreiter seconded this motion and it carried unanimously.

COMPLAINT - MRS. JAMES SMITH - AUTOMOBILE STORAGE LOT - ASHELAND AVENUE AND MORGAN AVENUE

Mrs. James Smith, 178 South Ann Street voiced a complaint to Council on the commercial development of an automobile storage lot at the corner of Asheland and Morgan Avenues. She said that Monteath's Wrecker Service hauled cars in night and day which disturbed the neighboring residents.

J. E. Johnson, Building Inspector, said the lot was zoned commercial and the use conforms to the requirements for a commercial zone. He said it was his understanding that the East Riverside Renewal Agency intended to acquire this piece of property and request that it be rezoned to residential.

Mayor Wood suggested that the City Clerk be instructed to ask the Housing Authority for a timetable on acquiring this and other property in the East Riverside project. Councilman Colton suggested that the Housing Authority be urged to expedite its acquisition of land purchases. Councilman Dailey concurred with Councilman Colton's suggestion that the land acquisition should be stepped up.

PETITION - REZONING ON BEAVERDAM ROAD

The City Manager presented a petition signed by C. W. Sluder and Julia Mae Sluder requesting rezoning of Lot 29-3/4, Sheet 4, Ward 9, from Residential to Neighborhood Trading.

Mayor Wood instructed the City Clerk to refer the petition to the Planning and Zoning Commission for study and recommendation.

Alan Lang of the Planning Staff, explained to Council that the original petition requested that the property be rezoned Commercial, but that an industrial zoning is more appropriate to the land use. He said for this reason the recommendation to Council from the Planning and Zoning Commission was that the zoning be changed from RA-6 Residential to Industrial. When asked by Councilman Colton if the City was obligated to provide adequate services to the area to meet the industrial zoning, Mr. Lang replied that the Planning Staff did feel that services should be provided even though it was not legally required.

Mr. Wayne Kinser, the petitioner, told Council that he did not require the extension of any city services and that he was satified with the change from Commercial to Industrial zoning.

Mayor Wood pointed out that in the same ordinance Council would be considering the rezoning of the Violet Hill Cemetery property from RA-6 Residential to Institutional, Ward 6, Sheet 18, Lots 48, 89, 90, 96, 96-1/4, 97, 98, 99, and 100.

In reviewing the plat, Council was concerned with the responsibility for maintenance of two small triangular areas within the right of way easements. Mayor Wood said that in the past that similiar small areas have been in time abandoned by the developers and that the city ends up maintaining these areas. He said if possible he would like to prevent this in the future. After some discussion, Councilman Morris moved that the final plat of the Maple Ridge Condominium be approved, subject to the map being amended to show that the triangular areas within the utility easement be maintained by the developer. This motion was seconded by Vice-Mayor Marshall and carried unanimously.

REPORT- ASHEVILLE HOUSING AUTHORITY - MONTEATH PROPERTY ON ASHELAND AVENUE

10. Mr. Ray Wheeling, Director of the Asheville Housing Authority, reported to Council that the Monteath property on Asheland Avenue under the original renewal plan was scheduled for acquisition. He said that under the amendment now being prepared it would be set up and zoned as commercial property as this appears the best use for all the property in this area. However, he said, several attempts have already been made to acquire this particular piece of property, but without success, and if it is acquired it would probably have to be done by condemnation. Under the original plan, Wheeling said, there would have been mixed residential and commercial uses for the property in this area, but under the proposed amendment it would be entirely commercial which could mean that the Monteath property would not be acquired at all.

Mrs. James Smith, 178 South Ann Street, who issued the initial complaint on the car storage operation, repeated her complaint and stated that the having of such an operation that close to her back door was not only an eye sore but also was a detriment to the value of her property.

Councilman Colton commented that it was his understanding that the whole area could be acquired, including the Monteath property and another piece of property on Asheland Avenue, also being used as a junk yard. He said he was concerned that they were not being acquired even though other pieces had been purchased without definite knowledge of the future land use. He said in his opinion a junk yard adjacent to residential property was not a good commercial use in respect to urban renewal. He said he was also concerned that more emphasis had not been placed on encouraging developers to purchase the property already available with the idea of building single family homes.

A lengthy discussion followed regarding the definition of a junk yard and whether the Monteath's operation would constitute a junk yard. According to Mr. J. E. Johnson, Building Inspector, it was concluded that the Monteath operation did not come under the ordinance definition of a junk yard.

RESOLUTION NO. 72-139 - RESOLUTION AUTHORIZING MAYOR TO EXECUTE RIGHT OF WAY ENCROACHMENT CONTRACT WITH THE STATE HIGHWAY COMMISSION FOR THE PURPOSE OF LOCATING AN AUTOMATIC FIRE ALARM CIRCUIT WITHIN THE RIGHT OF WAY OF THE STATE HIGHWAY COMMISSION ON U. S. HIGHWAY 19-23

6. Consideration was given to a resolution authorizing Mayor to execute right of way encroachment contract with the State Highway Commission for the purpose of locating an automatic fire alarm circuit within the right of way of the State Highway Commission on U. S. Highway 19-23.

The City Manager read the resolution.

Fire Chief Powell Ball explained that the State Highway had requested that the automatic fire alarm circuit, now attached to the bridge at the Broadway overpass be removed and that in order to meet this request he would have to drop it down to the Broadway grade and put it underground, therefore the encroachment agreement was necessary.

Upon motion of Councilman Colton, seconded by Councilman Morris, Resolution No. 72-139 was unanimously adopted.

Complete text of Resolution No. 72-139 will be found in Resolution Book No. 6 at page 300.

SITE PLAN - RIVERSIDE PARK

7. Mr. Ray Kisiah, Director of the Parks and Recreation Department, Mr. William Peyton, Chairman of the Advisory Board of the Parks and Recreation Department, and Mr. Logan Delany, Director of Model Cities, presented the plan for the development of Riverside Park. Ray Kisiah, the spokesman for the group, told Council that a great deal of time had been spent in drafting the plan but it was now complete and had the approval of all the agencies concerned.

The City Manager when asked for his comments, recommended that Council defer action until they had a chance to look at the site. Mrs. Oralene Simmons, Mrs. Nola Knuckles, and Logan Delany all asked that some action be taken at the present meeting.

Councilman Dailey said he was familiar with the site and was ready to take immediate action. Councilman Ochsenreiter said that he had been a member of the committee and any further study would be a duplication of effort on his part.

Councilman Dailey moved that the Riverside Park Plan be approved, as submitted. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

The City Manager read the resolution.

Upon motion of Councilman Morris, seconded by Councilman Ochsenreiter, Resolution No. 72-144 was adopted with Councilman Dailey voting no.

Councilman Dailey stated that he did not object to the appointee, but that due to the ratio of black students to whites, he would like Council to consider appointing another black member in the future.

Complete text of Resolution No. 72-144 will be found in Resolution Book No. 6 at page 305.

RESOLUTION NO. 72-145 - RESOLUTION APPOINTING MEMBER TO THE ADULT ADVISORY BOARD TO THE ASHEVILLE BUNCOMBE COUNTY YOUTH COUNCIL.

Consideration was given to the appointment of Mr. Bill Stroupe, 86 Wild Cherry Road to the Asheville Buncombe County Youth Council.

Mrs. Dunlap, Mrs. Glenn, and Mrs. Rogers, all residents of the area spoke in behalf of Mrs. Smith's complaint and were critical of the East Riverside Renewal plan.

Mrs. Hall of 164 Asheland Avenue, asked Council to investigate a vacant house at 160 Asheland Avenue that was being frequented by vagrants. Mr. Wheeling was asked by Mayor Wood to look into the matter.

To sum up the discussion, Mayor Wood commented that apparently the Monteath's operation did not fit the legal discription of a junk yard, but he suggested that any renewal plan that doesn't do something about that kind of land use isn't much of a redevelopment plan. He said that as much as Council would like to help the homeowners in the neighborhood who are concerned about the Monteath's operation, he didn't believe that anything could be done until the Housing Authority acquires the property through condemnation.

LARRY A. FISHER APPOINTMENT AS FINANCE DIRECTOR

The City Manager announced to Council the appointment of Larry A. Fisher as the Director of Finance, effective immediately. He said that Mr. Fisher was presently Deputy Director of Model Cities and for the present would divide his time between Model Cities and the City of Asheville.

PASSENGER BOARDING FEE AT THE ASHEVILLE AIRPORT

The City Manager reported that at meetings between his staff and the airlines officials, the airlines have stood by their original position that they would oppose any attempt to establish a boarding tax at the Asheville Airport. He said the airlines claim that a boarding tax would be in violation of the 1961 lease agreement between the City and the carriers.

Mr. Ward outlined the $4.5 million improvement plan for the airport of which the city's share would be $900,000, to be spread over a 3 or 4 year program. He said the next step was for the airport manager and the airport consultants to contact the FAA to determine how the city should proceed in putting the financial package together. He asked for the approval of Council to proceed. He then asked the Corporation Counsel for an opinion on the question of the lease violation. Mr. Robinson said the lease was subject to two interpretations and it would be up to the courts to decide which was correct.

Councilman Morris stated that he did not see how Council could consider the proposed improvements unless some additional source of revenue could be found. After a discussion, Councilman Morris moved that the Corporation Counsel be instructed to prepare an ordinance that would establish a $2 boarding fee. Councilman Ochsenreiter seconded this motion and it was carried unanimously.

Mayor Wood asked Mr. Robinson to try to have the ordinance ready for Council's consideration at the next meeting.

PETITION FOR REZONING - FRED PEARLMAN - TUNNEL ROAD

The City Manager presented a petition for rezoning signed by Mr. Fred Pearlman to rezone Ward 8, Sheet 11, Lot 35-1/4 from RA-6 Residential District to Roadside Business.

PUBLIC HEARING - CLOSING OF UNNAMED ALLEY LOCATED UPON THE PROPERTY OF CITIZENS HARDWARE AND SUPPLY COMPANY

2. A public hearing was held to consider the closing of an unnamed alley located upon the property of Citizens Hardware and Supply Company, Inc.

Mayor Wood opened the public hearing at 3:01 o'clock p. m.

The City Manager read the affidavit of publication which set the time and date of the hearing.

Mr. Larry McDevitt, an attorney representing the Citizen Hardware and Supply Company, Inc. and T. A. Groce, individually, told Council that his client wanted to tear down three existing structures now located over the alley in question, and to construct a new larger building east of the present location. He said the new larger building would clear the alley but the closing was necessary to obtain a clear title. He said his client owned all the property abutting on both sides of that portion of the alley proposed to be closed. The right of way for the sanitary sewer would be retained as he saw no reason to relocate the sewer. Evidence of the original dedication of the alley and its extension only from Clairmont Avenue to Johnson Drive was submitted by McDevitt in the form of two plats recorded in Plat Book 154 at page 9 and Plat Book 26 at page 76. However, McDevitt said his client was not interested in closing the alley its full length but just that portion abutting his property. This he also showed on a site plan submitted with his request.

Mr. Duffy Reints, Manager of the Burger Chef strongly opposed the closing. He said he also represented Lord's Drug Store and The Carpet Shop, all of which abut on an alley extending from Clairmont Road to Gracelyn Road, which Mr. Reints claims is part of the alley in question. As evidence to this he submitted a tax map which shows an alley running from Gracelyn Road, crossing Clairmont Road and ending at Johnson Drive. Mr. Reints read a lengthy prepared statement which gave as his chief objection to the closing the need of access now and in the future for business development along the Merrimon Avenue frontage. He said that the Merrimon Avenue Merchants Association, of which he is an officer, also opposed the closing. He contended that he did not have suffifient time to contact other property owners in the area to support him in his opposition, as the plat showing the area to be closed was not available in the City Clerk's office at the time when the public advertisement stated it would be. For this reason, he asked for a four week extension of the hearing.

The City Manager read the resolution.

Upon motion of Vice-Mayor Marshall, seconded by Councilman Ochsenreiter, Resolution No. 72-145 was unanimously adopted.

Complete text of Resolution No. 72-145 will be found in Resolution Book No. 6 at page 306.

RESOLUTION NO. 72-146 - RESOLUTION AUTHORIZING THE MAYOR OF ASHEVILLE TO ENTER INTO A THIRD PARTY CONTRACT WITH THE METROPOLITAN PLANNING BOARD FOR THE CONTINUED PREPARATION OF COMMUNITY RENEWAL PROGRAM INFORMATION - PROJECT NUMBER CPA-NC-04-20-1011

5. Consideration was given to a resolution authorizing the Mayor of the City of Asheville to enter into a third party contract with the Metropolitan Planning Board for the continued preparation of Community Renewal Program Information -Project Number CPA-NC-04-20-1011.

The City Manager read the resolution.

Mr. Nick Kmecza, Planning Director, explained that this was a continuation of the Community Renewal Program already in progress with the only change being a change in the source of funds. He said this contract would be in effect from December 25, 1972 through June 24, 1973.

Upon motion of Councilman Morris, seconded by Vice-Mayor Marshall, Resolution No. 72-146 was unanimously adopted.

ORDINANCE NO. 757 - AN ORDINANCE TO IMPOSE A FEE OF TWO DOLLARS ($2.00) ON EACH DEPARTING PASSENGER FOR USE OF MUNICIPAL AIRPORT FACILITIES.

6. Consideration was given to an ordinance to impose a fee of two dollars ($2.00) on each departing passenger for use of Municipal Airport facilities.

The City Manager read the ordinance and explained to Council that if certain necessary capital improvements on the airport were to be accomplished, some source of additional revenue would have to be found and he recommended the $2.00 boarding fee as the most appropriate means of financing the proposed improvements.

Council in reviewing the ordinance requested the Corporation Counsel, Robert J. Robinson, make several changes in the many provisions.

In paragraph 1 the effective date was set as being 15 days after the adoption of the ordinance.

In paragraph 5, relative to the use of revenues, it was concluded that the net revenue should be held and used to defray the present and future improvements to the airport and that this paragraph should also include debt service for these improvements as well as debt service on the present facilities.

In discussing paragraph 7 it was felt that chartered flights should be subject to the same regulations as the scheduled carriers. Therefore, Mr. Robinson was requested to make the change in this paragraph by inserting the words "scheduled air carrier or charter carrier" in lieu of the single word airline.

Following a lengthy discussion, Mayor Wood suggested, that since it was likely that Council would not meet on December 21st, that the hearing be continued until the week of December 28th. He asked both Mr. McDevitt and Mr. Reints, in the interim, to solicit comments and support for their contentions from other property owners in the area. Mr. Reints said that he has plannad to be out of town at this time and requested a January 4, 1973 date. Mr. McDevitt objected to this since his client wished to resolve the issue before the end of the year due to financing requirements. Mayor Wood asked Mr. Reints if he preferred that the meeting be continued on ~~the~~ December 21st or December 28th. Mr. Reints stated that the December 28th date was preferable to him.

Mayor Wood declared that, at 4:22 o'clock p. m., the hearing would be continued until December 28, 1972, and that it would be heard at the beginning of the meeting as one of the first items on the agenda. He said he would like to encourage both Mr. McDevitt and Mr. Reints to have those property owners in the area, who support one side or the other, to either be at the meeting or submit a written statement as to their feelings one way or another. He also asked Mr. McDevitt to prepare a resolution for Council's consideration at that time.

This lot they recommended should remain RA-5 Residential as it is now zoned, as they felt that this was the best land use for this particular lot.

Mr. Ray Wheeling, Director of the Housing Authority, agreed to the exception in the Planning and Zoning Commission's recommenation.

Mayor Wood closed the public hearing at 4:31 o'clock p. m.

The City Manager read the ordinance.

Councilman Colton moved for the adoption, which was seconded by Councilman Dailey. On a roll call vote of 7-0, Ordinance No. 756 passed on the first reading.

The City Manager advised Council that the Asheville Buncombe County Consolidated Water District had requested that another $5,000.00 be advanced from both the County and the City to defray preliminary expenses. He said that it was understood that this advancement would be repayed when the district has available funds.

Councilman Colton moved that the City Manager be authorized to place the sum of $5,000.00 in the hands of the Asheville Buncombe County Consolidated Water District in consideration of receiving a similiar amount from the County of Buncombe. The City Manager read the resolution and explained to Council that with their approval, the city would be in position to file an application before the dead line of December 31, 1972. He said the city would then have an application on file and any funds derived from this application could be transferred to the Consolidated Water District when their organization was completed.

Councilman Colton commented that under no circumstances should the filing of this application by the City, be interpreted to mean that the organization of the Asheville Buncombe County Consolidated Water District was not moving ahead at full speed. He said that meetings had been held with the newly elected County Commissioners and that the board was moving ahead as rapidly as possible.

Upon motion of Councilman Morris, seconded by Councilman Colton, Resolution No. 72-147 was unanimously adopted.

The City Manager read the resolution and he also read a memorandum from Gleavy Hathaway, the consulting forester for the City, who recommended to Council that the Gennett Lumber Contract be extended for the next two years. He said the net price for Sale #6 was $244,998.16 or an average price of $55.85/M BD. FT. He said this price far exceeded other timber sales in Western North Carolina and that it was his opinion, if the City elected to rebid this sale, they would risk receiving a much lower price.

Upon motion by Councilman Ochsenreiter, seconded by Councilman Morris, Resolution No. 72-148 was unanimously adopted.

Mr. McDevitt elaborated on each of the exhibits presented and asked that he be allowed to correct a previous statement that Citizens Hardware owned all the property on both sides of the portion requested to be closed. He said this was in error as a Mrs. Constance Rector's property did abut on a small portion of the alley. However, he said, she had signed the statement as not objecting.

Mr. Duffy Reints, again speaking in opposition to the alley closing, reviewed his position taken at the previous meeting. He stressed the need for the alley to reduce traffic on Clairmont Avenue and the value of the alley to future business growth. He presented a statement from the Board of Directors of the Merrimon Avenue Business Association, Inc. who opposed the closing. This statement was filed with the City Clerk and marked Exhibit 5. He further supported his opposition with signed statements from several property owners on Clairmont Avenue who specified they opposed the closing. Councilman Ochsenreiter moved for the adoption of the resolution with the amendment that permits be sold only to residents of the City of Asheville.

This motion was seconded by Councilman Morris.

In the discussion Mayor Wood read a letter from Mr. Sherman Young who opposed the increase from $70.00 to $100.00 and suggested a $85.00 fee for 1973, with a review of a further increase in 1974. Councilman Hoyle also opposed the $70.00 to $100.00 increase and moved to amend the resolution setting the new rates at $85.00 for the individual permit and $120.00 for family permits. Councilman Dailey seconded this amendment and the amendment was carried.

Councilman Morris noted that since the regular annual rates had been adjusted the mid-week (Monday through Friday) rates should also be adjusted and moved to reduce the proposed $75.00 year fee to $65.00. This amendment was seconded by Vice-Mayor Marshall and carried unanimously.

Mr. McMahan forwarded with his memorandum a letter from Ticar Chemical Company, a local supplier, who asked Council's favorable consideration of the bids submitted by his company even though they were not low. He noted that his company had supplied these commodities in the past and given good service. He felt he should be given consideration as his company's bids were competitive and he was a local supplier.

Mr. Howard Carpenter, part owner of Ticar Chemical, appeared in behalf of his company and repeated the request outlined in the letter to Mr. McMahan.

Mr. Robert Romeis, representative of Jones Chemical Company of Charlotte, appeared in behalf of his company and their bid on item 1 on liquid chlorine. C. He said the advantage to the city would be the overnight services his company could render plus giving the business indirectly to a local firm.

BIDS- GASOLINE, KEROSENE, FUEL OIL, DIESEL FUEL, MOTOR OIL, AND GREASE FOR CALENDAR YEAR 1973.

17. Consideration was given to bids received on December 27, 1972 for gasoline, kerosene, fuel oil, deisel fuel, motor oil, and grease for calendar year 1973.

The City Manager read a memorandum from J. R. McMahan, Purchasing Agent, advising him that not having received three bids on the original request of December 19, 1972 he re-advertised and opened bids on December 27, 1972. He noted that none of the major oil companies bid on Item # 1, regular gasoline, and that the two local bids received were higher than the bids on the premium gas. He recommended that the quanities of the regular and the premium gasolines be combined and that Gulf Oil Company be awarded the bid on both items, using the bid price of the premium gas. On all the other bids he recommended the low bids.

The City Manager reported that it was difficult to secure bids due to the dispute the major oil companies are having with the Federal government relative to the Phase 2 pricing of fuels.

Councilman Morris moved that the low bids be accepted in all instances, except in the case of items 1 and 2 which are to be combined under the low bid of item 2, with instructions to the City Manager and the Purchasing Agent to negotiate with the low bidder on the gasoline in view of securing a lower price on a lesser octane gas.

This motion was seconded by Councilman Hoyle and carried unanimously.

W. R. Swearngan, Executive Director of the Project Service Center, under whose direction the scholarship program is administered, furnished Council with the facts and statistics on the number and types of scholarships that had been processed to date. He said that the demand for the scholarship had far exceeded the funds available and that deserving applicants had to be turned away. PASSENGER BOARDING FEES AT THE ASHEVILLE AIRPORT

The City Manager advised Council that he had just received a letter from Piedmont Airlines dated January 9, 1973 regarding the proposed passenger boarding fees at the Asheville Airport. At Mayor Wood's request Mr. Ward read the letter in its entirety. In the letter, Piedmont again voiced their opposition to the enactment of Ordinance No. 757 in that it was in conflict with the Basic Airport Use Agreement. They again brought up the pending airport improvements and referred to their letter of December 7, 1972 to the Airport Manager in which they stated that the improvements were in excess of the airlines needs. They claimed that they had not received a copy of Ordinance No. 757 until January 8 and intimated they were not aware of the January 12 effective date. In view of this they requested a 90 day delay in the effective date. During this time they propose to discuss the needed improvements and allow Congress time to act on revisions to the Airport/ Airways Development Act now pending.

Councilman Mortis stated that he thought it appropriate to contact the airlines and tell them that Council would welcome suggestions as to the necessary improvements to the airport.

Mayor Wood asked if this was the first communication with the airline since Council passed Ordinance No. 757 on the first reading. The City Manager told him that it was. In the absence of further comments or motions, Mayor Wood instructed the City Manager to write to Piedmont Airlines and advise them that since this was the first official communication that Council had received since the ordinance was first considered, Council was not inclined to grant the requested 90 day extension. Also to advise Piedmont Airlines that Council would always be happy to discuss improvements at the airport, as well as the means to finance them.

Sluder on Beaverdam Road from Residential to Neighborhood Trading; the rezoning of Fred Pearlman's property at the rear of 246 Tunnel Road from Residential to Roadside Business; the rezoning of property owned by Douglas Huffman and E. J. King on Brownwood Avenue from Residential to Commercial. Mayor Wood noted that the Memorial Mission and St. Joseph's Hospital, the Fred Pearlman and the Huffman and King requests were given favorable recommendations by the Planning and Zoning Commission and would, in accordance with policy, be scheduled for public hearings. However, in the case of the C. W. Sluder request on Beaverdam Road, the Planning and Zoning Commission denied this request and recommended that it remain as it is presently zoned. At this time, Mr. George K. Peterson, the lessee of the property and prospective buyer of this property appeared on behalf of the owner and requested a public hearing.

Councilman Morris moved that public hearings be scheduled for the C. W. Sluder and Fred Pearlman requests at the regular meeting on February 1, 1972 and that the Memorial Mission-St. Joseph's and Huffman-King requests be scheduled for public hearings at the regular meeting on February 8, 1972, with all hearings to be advertised at the petitioners expense. Allan Morris requesting a license to operate a billiard hall at 85 Tunnel Road, which is in the Tunnel Road Shopping Center. He reported that the application was in order and all the necessary reports had been filed so Council could act on the application at this time if it was their desire to do so.

Councilman Morris noted that in the past it had been Council's policy to publicize such applications before taking action so that anyone opposing the application would have an opportunity to be heard. He moved that action on the application be tabled until the next meeting. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

PETITION - YEARLY PLAYING MEMBERSHIPS AT MUNICIPAL GOLF COURSE

The City Manager reported to Council that he had received a petition addressed to them signed by approximately 32 citizens requesting that the privilege of buying yearly memberships to the Municipal Golf Course be extended to players outside the City Limits. In the absence of a motion, Mayor Wood stated that Council would take this petition under advisement.

REZONING PETITION - CORNER OF LEICESTER HIGHWAY AND WESTWOOD

The City Manager read a petition from E. J. Bumgarner owner of Lots 8-1/2 and 8-3/4, Ward 6, Sheet 25, located at the corner of New Leicester Highway and Westwood Street, requesting a rezoning from RA-5 Residential to Commercial or Roadside Business.

In the absence of an objection from members of Council, Mayor Wood instructed the City Clerk to forward the petition to the Planning and Zoning Commission review and recommendation. He also requested that other property in the area be considered for possible rezoning.

The City Manager read the resolution, after which Councilman Ochsenreiter moved for the adoption of the resolution. This motion was seconded by Councilman Bailey.

In the lengthy discussion that followed, Councilman Colton questioned the reasons for the recent large number of requests for the extension of Model Cities projects. Mr. Bruce Fitchett, Director of the Irene Wortham Day Care Center, the operating agency for the Upward Training Program and Mr. George Phipps, Model Cities Contracts Officer, explained that the project under consideration was not only late in getting started but the federal eligibility guidelines had been altered to the extent that the overall scope of the project had been reduced. In doing this, the number of students enrolled in the program was also reduced and all the funds allocated were not used. Mr. Fitchett said that an effort was being made to obtain a grant from HEW to support the Upward Training Program and that the unused funds from the First Action Year would be used to substain the program until such time as HEW made their decision. He speculated that this would be in two or three months.

Mayor Wood called for a vote on the resolution and it carried unanimously.

Complete text of Resolution No. 73-4 will be found in Resolution Book No. 6 at page 330.

REZONING PETITION - SWANNANOA RIVER ROAD

The City Manager advised Council that he had received a petition from Ralph W. Davis, Vice-President of Gold Dot Foods, requesting the rezoning of a portion of Lot 40, Ward 8, Sheet 6 on Swannanoa River Road from RA-6 to Industrial.

In the absence of an objection from Council, Mayor Wood instructed the City Clerk to refer the petition to the Planning and Zoning Commission for study and recommendation. He further asked that the Planning and Zoning Commission determine if a zoning other than Industrial would satisfy the Carolina Power and Light Company's needs.

BON TON CLEANERS - MEMO TO CITY MANAGER FROM THE BUILDING INSPECTOR

The City Manager reported as information, that he had received a memorandum from J. E. Johnson, Building Inspector, advising him of the legal procedure followed in an effort to eliminate the unsafe and dilapidated conditions of the building and property located at 650 Haywood Road, known as Bon Ton Cleaners. He said that Johnson had advised him that an order had been issued to the owners to make the structure safe and to clean up the property by February 25, 1973, but that the owner had appealed this order to City Council and had requested a public hearing.

When questioned by Council, Mr. Johnson said that the owners had withdrawn their appeal and indicated they were prepared to carry out the conditions of the original order. He said he would be ready with the necessary papers to see that the structure was quickly demolished if the owners did not take the required action.

REPORT OF CITY MANAGER - DUST AND DIRT ON CITY STREETS

The City Manager reported that he and the staff had received numerous complaints on the dusty and dirty conditions of the city streets caused by contractors grading building sites throughout the city. He said to his knowledge none of the present ordinances restrict the contractors from doing so, nor is there an ordinance requiring the contractor to be responsible for cleaning up after such a grading project. He recommended that an addition be made to the grading ordinance so that future projects could be controlled.

Mayor Wood instructed the Corporation Counsel to look into the present ordinances and prepare the necessary additions for Council's consideration.

CRIME REPORT - POLICE CHIEF J. C. HALL

Police Chief J. C. Hall reported to Council that the major crime rate in Asheville was substantially lower in 1972 over 1971. He noted that murders were down from 9 in 1971 to 6 in 1972, a decrease of 33.3 per cent; rapes declined from 8 to 3, or 63 per cent; and assaults to commit rape from 5 to 4, or down 20 per cent. He said that overall crime was up approximately 1 per cent, about equal to the national average. When questioned by Council, Chief Hall stated that he attributed the increase in "muggings" and armed robberies to the drug-abuse problem where the addict was desperate for money. In answer to further questioning he stated that it was his opinion that adequate street lighting was the greatest deterrent to so called street crimes.

Mayor Wood instructed the City Manager to have C. R. Pinkston, of the street lighting section, work with the Police Department in eliminating dark areas in the City so as to assist the law enforcement effort.

The City Manager read a memorandum from the Purchasing Agent who recommended the second low bid of Motorola Communications and Electronics Company as all the communication equipment now in use is of Motorola manufacture. He stated that Motorola maintains a local service department and the service and dependability of Motorola equipment has been excellent. Further, he stated that the low bidder Aerotron, Inc. only bid a guarantee of ninety days in comparison with Motorola's one year guarantee. J. E. Johnson, Building Inspector, whose department will use these radios, concurred in this recommendation.

Councilman Colton was advised by the Purchasing Agent that, in his opinion, awarding the contract to the second low bidder would not discourage future competitive bidding.

Mr. Kmecza, Director of Planning, was called on to give the recommendation of the Planning and Zoning Commission. He explained that the Commission's favorable recommendation was based on the fact that the proposed Tunnel Connector would isolate the lot in question, thus making the property less desirable for residential purposes and more desirable as Commercial. MONTFORD AVENUE AREA DISCUSSION

Council discussed at length the steming of blight in the Montford Avenue area. Councilman Colton called to their attention the unhealthy condition that existed in this area due to the run-down condition of some of the houses and the existance of junk cars. He cited a burned out dwelling in the vicinity of 182 Montford and two junk cars that almost block the sidewalk at 230 Montford Avenue. He said he felt that this area given some attention could be rejuvenated or else it would become another slum area.

J. E. Johnson, Chief Building Inspector, was questioned by Council as to what his department was doing in this area. He told Council that his staff was aware of the dwellings that should be demolished and even though some progress has been made, the process of getting something done was time consuming. He said he could speed this up with additional legal staff and that he had already recommended this to the City Manager.

The City Manager confirmed that Johnson had requested additional legal help and said that this request would be included in his revenue sharing recommendation to Council.

Richard D. Wood, Jr.
MAYOR

Marion F. Maccarty
CITY CLERK

Logan Delany, Executive Director of Model Cities, explained to Council that the Second Action Year Contracts on the 13 projects listed in the resolution had expired as of January 31, 1973 and that the resolution, if passed by Council, would authorize the extension of these projects, using unexpended funds, pending HUD approval of Third Action Year allocations. He said that, according to the information available to his office, he felt the Third Action Year allocation would be approved, but that he had enough money to continue the programs for at least two months.

Mayor Wood and Council questioned the procedure that would be followed in re-allocating the unexpended funds to the various projects and after some discussion requested Mr. Delany and Mr. Larry Fisher, Fiscal Control Officer, to compile a breakdown of the status of the 13 projects showing the original budget, the amount of unexpended funds and the average monthly rate of expenditure for each project. When this was completed it was determined that the Teachers Aid Program and the Inner City Challenge Project were the only two programs that had used up practically all the funds allotted to them.

After further discussion, Mayor Wood suggested that in order to exercise control over each projects expenditures during the interim period, the resolution should be amended to spell out these controls. He suggested the following wording, "No project shall expend more than its average monthly expenditure rate (as determined by the City Manager) without the express permission of the Executive Director of City Demonstration Agency and the City Manager. No new or replacement employees shall be hired or capital expenditures made without the express permission of the Executive Director of the City Demonstration Agency and the City Manager."

Councilman Ochsenreiter moved for the adoption of the resolution as amended. This motion was seconded by Councilman Dailey and carried unanimously.

Mayor Wood instructed Mr. Delany to keep Council informed through periodic reports made frequently as practicable, as to spending rate and financial balances of each project. He said that if by March 1, 1973, there was not a firm indication that allocations would be forth coming for the Third Action Year, then Council would like to have Mr. Delany's recommendation as to which projects should be discontinued and which ones should be continued.

Complete text of Resolution No. 73-12 will be found in Resolution Book No. 6 at page 339.

MONTFORD HILLS COMMUNITY CLUB - PRESENTATION OF STATEMENT

Mr. Frances J. Coyle, President of the Montford Hills Community Club, read a written statement to members of Council. Mr. Coyle expressed his satisfaction in favor of the grading ordinance which passed on its first reading. In the statement, the Club asked for strict enforcement of ordinances pertaining to housing and sanitation, and wanted to know what could be done about the removal of junk cars from private property, the use of Revenue Sharing funds for rehabilation of the Montford Area, the enforcement power of the Environmental Officer for the City and what programs are available to assist people in need to meet code standards. Mr. Coyle stated that the Club was planning a Clean-Up Campaign for April 1, 1973 and requested the city to make sanitation strucks available for the campaign.

Mayor Wood called on Mr. J. E. Johnson, Chief Building Inspector, to comment on the matter. Mr. Johnson stated that we did not need stronger ordinances on housing, however he did need an ordinance pertaining to vacant lots, such as an ordinance whereby a $10.00 citation would be issued to persons who fail to clean up their lots and yards within a reasonable time limit after notification. Mr. Johnson advised that Mr. Robinson, Corporation Counsel, had been asked to draft an ordinance of this type. As to junk cars on private property, he said that the city would move these cars with the owners consent, however, without the owners consent there was a long legal procedure to follow and that as he had previously stated the Revenue Sharing funds could possibly allow him to employ professional legal help in such matters.

Mr. White, of Tacoma Circle, said that the city should have proper enforcement of the ordinances which were already in effect. He cited a place on Blake Street where garbage can lids were off the cans and also a structure at 275 Montford Avenue being used as a lumber yard.

11. Consideration was given to an ordinance amending Section 25-3 of the Code of Ordinances of the City of Asheville relating to obstructions on streets and sidewalks.

Members of Council were furnished with copies of the ordinance.

The Assistant City Manager read the ordinance and explained to Council that this ordinance was prepared due to the many complaints of grading contractors carrying mud onto the streets and creating dust in the adjoining areas. Heretofore, the City has had no authorization to make contractors clean up the mud.

Mr. William C. Moore, substituting for Corporation Counsel, Robert J. Robinson advised Council that other cities were charging a penalty of $10.00 to $25.00 for violation of this ordinance.

Mayor Wood stated that he thought this was the best approach to getting the contractors to clean up rather than attaching stipulations to grading permits.

Councilman Morris stated that the large grading contractors had equipment to clean up after grading, but would like to know what the small contractors would do that does not have equipment to do so. Councilman Morris was advised that the contractors could call the Public Works Department and the City would clean it up for a nominal fee.

Councilman Morris moved to have a $25.00 penalty violation fee charged for each day the ordinance was violated. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

Vice-Mayor Marshall moved for the adoption of the ordinance. This motion was seconded by Councilman Colton.

When asked by Mr. Coyle if there were any federal programs that could help the low income families meet code standards, Mayor Wood stated that federal programs of this nature had been discontinued some 18 to 24 months ago. He said he wanted to recognize this group for their work in accomplishing this and he urged everyone to make an effort to attend the groud breaking ceremony at the site adjacent to Asheville School. He said the date set for the event was Wednesday, February 14, 1973 at 1:30 p. m. and that Bobby Richardson, Baseball Coach at the University of South Carolina would be the principal speaker.

Section 7, paragraph (c) deleted the phrase regarding the wording of signs as not being "derogatory" or "defamatory."

Section 8, paragraph (c) added as an exception activities covered under the National Labor Relations Act and also excepted the area covered by the City County Plaza.

A Miss Mildred Schaffle voiced her objection to the entire ordinance stating that it was depriving the citizens of Asheville of their constitutional right to freedom of speech.

Councilman Colton briefly reviewed the changes as he understood them and then moved that the ordinance be amended to include the revisions. Councilman Ochsenreiter seconded this motion which was carried.

Phase I of Improvements to Pritchard Park		$ 20,000
	TOTAL	$ 475.780

Due to an emergency, Councilman Colton was excused from the meeting by Mayor Wood at 8:20 o'clock p. m.

The City Manager fielded several questions from Council on his recommendations. Councilman Dailey questioned the use of funds for the updating of the water system since the Consolidated Water System is in the formation phase. Mr. Ward advised him that if the CWD did become a reality they would have to proceed along the same planning and that it was his understanding that the City would be reimbursed by CWD for any expenditures. He said he felt that the City should not delay further in proceeding with a plan to improve the City's water quality.

Councilman Hoyle was enthusiastic in his backing of the recommendation to improve the quality of the City's Water System. He also favored the recommendation for additional funds for street paving.

Councilman Ochsenreiter favored the recommendation on the purchase of an additional street flusher. He said he felt this would assist the street department in giving better service in this area.

Mayor Wood partially fielded Councilman Dailey's question on the use of revenue sharing to insure jobs for Model Cities officials who could be displaced if Model Cities were phased out. He said that the recommendations before them covered mostly emergency projects. Mr. Ward added that to the best of his knowledge the Model Cities Agencies will be operating under limited funding until June, 1974 and would not need additional funds until that time.

Mayor Wood commented that improving the quality of Asheville's Water is certainly a number one priority with him and he felt that the entire Council was of the same opinion. He said he endorsed Mr. Ward's recommendation for proceeding with plans for the improvement of the system.

The City Manager requested that Council take action on a resolution authorizing him to hire a consulting engineer to design and draw up plans and specifications for the three water items recommended for the updating of the water system.

Mayor Wood asked him to present the resolution.

Upon motion of Councilman Morris, seconded by Councilman Hoyle, Resolution No. 73-20 was carried. All Councilmen present voting "yes" except Councilman Dailey, who voted "no."

Complete text of Resolution No. 73-20 will be found in Resolution Book No. 8 at page 348.

James Baley, an attorney representing Exxon Corporation, spoke in opposition to the ordinance. He explained that his client was planning to expand their service station operations at the corner of Biltmore Avenue and Victoria Road and that they had already purchased or had options to purchase several pieces of property immediately north of their present station. He said the passage of the ordinance would restrict service stations as a permitted use and would prevent his client from continuing their present plans. He strongly opposed the ordinance.

George Beverly, local real estate broker, who was representing the owner of the property under option to Exxon, also opposed the ordinance on his client's behalf.

J. C. McGee, owner of the drugstore adjacent to the Winn-Dixie Store at Biltmore Avenue and Victoria Road also opposed the ordinance as there was some doubt that he would be able to rebuild if his business was destroyed by fire.

Joe Swicegood, owner of "Little Pigs Restaurant" opposed the ordinance for the same reasons.

Nick Kmecza, Planning Director, told Council that under the new zoning ordinance now being drafted many of the discrepancies as pointed out will be corrected. Mr. Kmecza advised Councilman Morris that there was no urgency in passing the ordinance at this time.

After some discussion, Councilman Colton moved that the third reading of the ordinance be tabled and that the planning staff be instructed to prepare another amendment which would revise the permitted uses in the Institutional District. Councilman Morris seconded this motion and it was carried. Mayor Wood explained that he had a conflict of interest and did not vote.

COUNCILMAN COLTON'S REPORT ON CONSOLIDATED WATER DISTRICT

Councilman Colton reported to Council that the members of the Consolidated Water District Board have been working on a Consolidated Water System for Asheville and Buncombe County for the last two years, but because of certain legal obstacles that have arisen it did not appear that such a system would become a reality in the near future. However, he said, the Board would continue with their efforts to explore every possible means of overcoming the legal difficulties in establishing the CWD, but the City should look now to the possibility that they might have to "go it alone." He recommended, that along this line, the city enact a new water extension policy as well as a study of the present rates structure. He said the city has refrained from making any major revisions, anticipating this to be handled by the establishment of the CWD.

Councilman Morris, also a member of the CWD Board, assured Council that every effort would be made to get the County to participate in the financing of the necessary improvements.

Mayor Wood suggested that Council should consider establishing a differential between the rates of the municipal customers and other high volume water consumers, as the rates studies are being made.

On a roll call vote of 7 - 0, Ordinance No. 763 passed on its third and final reading.

Mayor Wood instructed the City Clerk to see that Contractors were informed of the passage of the ordinance.

Council questioned whether this agreement would approve water services to the entire Brookwood Subdivision or just Section One of the subdivision. To clarify this point, Councilman Morris moved that the agreement be amended to refer to 84 single family dwellings instead of "84 proposed building lots." This motion was seconded by Councilman Ochsenreiter and carried unanimously.

Councilman Ochsenreiter moved for the adoption of the resolution as amended. His motion was seconded by Councilman Dailey and carried unanimously.

SHANGRI-LA APARTMENTS DEMOLITION

Councilman Morris asked J. E. Johnson, Building Inspector, for a status report on the demolition of the Shangri-la Apartments. Mr. Johnson advised him that due to a mortgage on the property the city could not get a release from the mortgagee to complete the demolition. Mayor Wood instructed Mr. Johnson to get a release from the property owner, complete the demolition and put a lien on the property.

ASHEVILLE-BUNCOMBE YOUTH COUNCIL PROJECT

Joe Houser, Senior Vice President of the Asheville-Buncombe County Youth Council asked Council's support of their project to conserve water. He said by placing a brick in the water tank of the commode would conserve a considerable amount of water and that the Youth Council was going to distribute the bricks. He asked Council to appropriate $22.00 from the City's budget to buy the initial 1000 bricks. Mayor Wood advised him that it would be complicated to amend the budget for $22.00 but that he thought he could raise the money through contributions from the Councilmen.

PROCLAMATION - YOUTH WEEK IN NORTH CAROLINA

Mayor Wood proclaimed the week of March 11 - 18, 1973 as Youth Week in North Carolina.

MRS. ROY ROGERS - SENIOR OPPORTUNITY CENTER

Mrs. Roy Rogers appealed to Council not to relocate the Senior Opportunity Center. She introduced a number of Senior Citizens who had made a special effort to attend the Council meeting to indicate their approval of the program and its present location.

COUNCIL RECESSED

Mayor Wood called for a short recess of Council at 4:40 o'clock p. m. and reconvened the meeting at 4:48 o'clock p. m.

J. E. Johnson, Building Inspector, explained to Council that some time ago he was instructed to study the anti-littering ordinances of other municipalities and to prepare a similiar ordinance for Council's consideration. He said that the ordinance before Council was modeled after the Charlotte ordinance which had proven successful since its adoption.

Council reviewed the ordinance in depth and took issue with several conditions that needed clarification.

Dick Plemmons of 111 Hansel Street asked Council if the proposed ordinance would do anything to clean up the junk yard in the vicinity of his home. Mayor Wood advised him that the Bennett and Pelmet junk yard, a greater portion of which is in the county, would come under the grandfather clause and that this ordinance could not be used as a means of doing away with this junk yard. Mr. Bill Shotwell, also a resident of Hansel Street, supported Mr. Plemmons in appealing for the cleaning up of the junk yard.

Mayor Wood instructed the building inspector to investigate the conditions of the Bennett and Pelmet Junk Yard and to report his findings to Council at the next meeting.

Councilman Morris moved for the adoption of the anti-littering ordinance as it was read. Councilman Colton seconded this motion and on a roll call vote of 6 - 0, Ordinance No. 766 passed on the first reading.

Mayor Wood directed Mr. Ward, Mr. Robinson, and Mr. Johnson to study the ordinance in regard to the questions raised by Council and to have the amendments ready when the ordinance is presented for the second reading.

WATER AGREEMENT WITH HENDERSONVILLE FOR WATER SERVICE TO ASHEVILLE HENDERSONVILLE AIRPORT INDUSTRIAL PARK

5. Consideration was given to a request from the Hendessonville Water Department that Asheville and Hendersonville enter into an agreement relative to water service to the Asheville Hendersonville Airport Industrial Park.

Mayor Wood reviewed the conditions agreed upon during the negotiations for the sale of the Asheville Hendersonville Airport as an Industrial Park. At this time he explained it was agreed that Asheville would extend its water lines to the Buncombe-Henderson County line and that Hendersonville would pick it up at this point and extend to the industrial park. This was to be a temporary arrangement until such time as Hendersonville could extend its lines from Mountain Home, a period not to exceed 5 years. In the interim period Asheville would supply water to the site, read the meters and bill the customers in accordance with the water rates then in effect. Hendersonville would automatically assume responsibility for these customers when they were in a position to do so.

Councilman Morris moved that the City Manager be authorized to write the Hendersonville Water Department advising them that the City of Asheville would supply water to the Industrial Park as outlined by Mayor Wood.

Vice-Mayor Marshall seconded this motion and it was carried unanimously.

Miss Anita Belle Hensley, a social worker trainee, presented a resolution that explained their grievances.

Logan Delany, Model Cities Director, also read a resolution passed by the Model Cities Commission at a call meeting on February 28, 1973, which supported the views of the employees of the Day Care Project and called for the establishment of a negotiating body.

In answer to Mayor Wood's question as to why the situation had reached a crisis stage before being brought to Council, Delany said that the Day Care Project was a complex operation and it was felt that it could be worked out without coming to Council.

Jennifer Watson, Susan Durham, Robert Waller, Wanda Henry, Carl Johnson, Sandra Dorn, Sally Wright, Dicie Jackson and Gracelyn Cromwell explained the grievances that generally fell into the categories of personnel, nutrition, health, and curriculum.

Council was concerned about the continuing operation of the Day Care Centers while the workers were not on the job. It was explained that the Department of Social Services had hired substitutes.

Mayor Wood asked the group if a decision from Council was expected in regard to resolutions presented. Councilman Ochsenreiter suggested that he thought Council should hear both sides before making a decision.

Mayor Wood said that he did not question the motives of their convictions but that there was questions as to the wisdom of their action. He then appointed Councilman Colton, Councilman Ochsenreiter and himself as a committee to become fully acquainted with the situation and report back to Council. He asked Logan Delany to furnish the committee with a package of grievances and supportive evaluation studies.

At last Thursdays meeting Council suggested several changes be made to the ordinance before being presented for the second reading. Acting Mayor Colton asked Corporation Counsel Robert J. Robinson to indicate these changes and to re-read the section in which the changes occurred. This was done to the satisfaction of Council and Councilman Morris moved to amend the ordinance as changed. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

E. R. McCarthy in commenting on the ordinance said he did not oppose it but he felt that it put too much of the burden on the land owner rather than the person doing the littering. He read from a typewritten list several other suggestions which he gave to Mr. Robinson to consider.

Mrs. Stella Miles also took exception to placing the burden on the property owner.

Councilman Dailey asked to be excused and left the Council Chamber at 3:49 o'clock p. m.

J. E. Johnson, Building Inspector, reported to Council that as instructed by Council at the last meeting he had made an inspection of the Bennett and Felmet Junk Yard and found that a large part of the property was outside of the City Limits and not within his jurisdiction. Mr. Dick Plemmons, a resident of Hansel Street which is in the vicinity of the Bennett and Felmet Junk Yard, read a petition addressed to Johnson and signed by 20 or more residents of the area, seeking to have the junk yard declared a safety and health hazard.

Council assured Mr. Plemmons that every effort would be made to improve the conditions of the junk yard.

It was further explained that a new grievance Committee would be formed made up of an equal number of administrative and line staff, plus a neutral person agreeable to both groups. This committee would make recommendations on personnel and program matters.

It is our understanding that after a meeting on the dismissed workers, late Wednesday afternoon, that they intend to reapply for their jobs in the manner described and to participate in the grievance procedure outlined.

Nick Kmecza, Director of Planning, was requested to review the revised ordinance. With the use of color coded maps he outlined the differences between the zoning ordinance in use today and the proposed amended version. He described the new designations to be applied to the zoning districts but stressed that the uses and conditions now permitted would change appreciably. He also pointed out that a floodway district would be included in the new ordinance. Mr. Kmecza fielded many questions from Council and at the conclusion Mayor Wood suggested that Council should spend several work sessions with the planners in reviewing the revisions in detail before taking any action.

Councilman Morris moved that the public hearing be continued, without further public notice, until the regular meeting on May 17, 1973. This motion was seconded by Councilman Ochsenreiter and carried unanimously. Mayor Wood thanked Mr. Kmecza and complimented him on his presentation.

Mayor Wood opened the public hearing at 3:07 o'clock p. m. and asked the City Manager to read the affidavit of publication setting the time and place for the hearing.

PUBLIC HEARING - AMENDING AND REVISING ORDINANCE NO. 322, AS AMENDED, THE ZONING ORDINANCE OF THE CITY OF ASHEVILLE

3. A public hearing was held concerning the adoption of an ordinance amending and revising Ordinance No. 322, as amended, the Zoning Ordinance of the City of Asheville.

Mayor Wood opened the public hearing at 3:08 o'clock p. m. and requested the City Manager to read the affidavit of publication setting the time and date for the hearing.

Logan Delany, Model Cities Director, read a resolution passed by the Model Cities Commission in which they recommended to Council the programs they felt should be deleted and the budget adjustments necessary to meet the respective funding levels for operation of the Third Action Year Plan of the Comprehensive Cities Demonstration Program. He then reviewed each individual project and answered questions from Council relative to the phasing out of certain programs and the reallocation of the next years funds for the remaining projects. A new project, entitled Neighborhood Centers, with a $361,068 budget was questioned extensively by Council. Mr. Delany explained that this would establish 3 multi-purpose neighborhood centers that would fill a need for some program to take over when Model Cities is phased out. He said all the details had not been worked out but that he would furnish Council with the information at a later date.

Mayor Wood stated that it was obvious that Council could not attempt to take any action at this time. He said more information and further study would be needed. He requested Mr. Delany to furnish this information.

Mr. Fred Brewer, Director of the Senior Opportunities Project spoke in favor of this program and asked Council for an opportunity to consult with them and to furnish such information as Council might need in making their decision to fund this program.

Mrs. Oralene Simmons, a Model Cities Commissioner, told Council that she was concerned that a Neighborhood Center was not being planned for the Montford Park area.

Mrs. Nola Knuckles, a former Model Cities Commissioner, also voiced her concern over the need for a Neighborhood Center in the Montford Area. She said that Mrs. Simmons had plans for such a center and asked Mrs. Simmons to make them available to Council.

Carl Johnson spoke critically of the Model Cities Program and the leadership to date. He said that every effort should be made to retain the employment level and not have a wholesale cut back of employees. He favored the Neighborhood Center concept.

RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT FOR WATER STORAGE FACILITIES AND WATER LINE EXTENSIONS TO SERVE HERITAGE, INC. DEVELOPMENT "GLEN MEADOWS" ON BREVARD ROAD, AVERY CREEK TOWNSHIP

9. Consideration was given to a resolution authorizing the Mayor to execute an agreement for water storage facilities and water line extensions to serve Heritage, Inc. Development "Glen Meadows" on Brevard Road, Avery Creek Township.

The City Manager read the resolution and the recommendation of R. R. Buirgy, Water Department Engineer.

Councilman Morris questioned the City's right to commit to the maintenance of the water lines as stated in the agreement. He said that the Sullivan Act called for Buncombe County to maintain the lines outside the City Limits and he did not feel that the City should sign an agreement to maintain these lines.

WATER SERVICE REQUEST - FIRST ATLANTA EQUITY CORPORATION - WATER SERVICE TO A PROPOSED MOTEL SITE AT THE ASHEVILLE AIRPORT INTERCHANGE ON I-26

7. The City Manager advised Council that he had received a request from the First Atlanta Equity Corporation for water service for a proposed motel to be located at the Airport Interchange on I-26. He said that since the property in question was located in Henderson County it was his recommendation to either refuse the service or to work out some plan so that Hendersonville Water Department could service this facility.

Councilman Colton supported the latter recommendation as he felt that the continued servicing of water users beyond the Buncombe-Henderson County line would not have a stopping point. He felt that the Hendersonville Water Department should be contacted and an effort be made to work out an agreement, similiar to the one now in effect with regard to the old Asheville Hendersonville Airport property in that Asheville could supply water at this time with the understanding that Hendersonville would take over the service when their lines are extended within the next 3 to 5 years.

Councilman Morris moved that the City Manager be instructed to contact the appropriate Hendersonville officials to ascertain their willingness to take over the service in this area, either now or in the future and to report his findings back to the Council. This motion was seconded by Councilman Ochsenreiter and carried unanimously.

No doubt, there are many avenues to achieve this end. I would like to make a recommendation as a starting point . . . . that a joint meeting of the City Council of Asheville and the Commissioners of Buncombe County be held to discuss ways that might enable these governing bodies to better serve the people of Asheville and Buncombe County."

However, he told Council that the contract contained a six (6) months cancellation clause in favor of both parties.

Mayor Wood requested the City Manager to read the resolution after which Councilman Colton moved for its adoption. Vice-Mayor Marshall seconded the motion and it was carried unanimously.

MODEL CITIES RESOLUTION DEFERRED

Mayor Wood announced that since the final item on the published agenda would involve the continuation of a previous work session before any action could be taken, he deferred this item until all other business was completed.

CITY MANAGER'S REPORT ON "THE OFFICE"

The City Manager reported that in accordance with Mayor Wood's instructions issued at the April 26th meeting he had met with Police Chief Hall, Fire Chief Ball, Corporation Counsel Robert J. Robinson, and Mr. Wade Hall, owner of "The Office" nightclub, and discussed the nuisance complaints made by the residents in the vicinity of Mr. Hall's establishment. He said Mr. Wade Hall was in the audience and would like to advise Council as to what had been done to alleviate some of the problems.

Mr. Wade Hall spoke to Council at length in defense of his operation. He said that an off duty policeman was employed to maintain order and that there were strict rules about carrying beer outside the club. He said it was difficult for him to control parking and noise beyond his premises but that he had made arrangements for his patrons to park in the filling station across the street. He also said that he was making an effort to control the litter problem by employing a man to clean up the premises every morning. He said he had not personally received more than one or two complaints but that he would be glad to meet with any of the complainants to discuss the problems.

Mrs. George Stewart, 95 Edgewood Road, who complained at the previous meeting said the situation had improved some but that the noise, litter and parking was still in evidence.

Several persons living in the area spoke in Mr. Hall's behalf and said they had not been disturbed by the operation of the night club.

Mayor Wood suggested that the City Manager write to the complainants explaining Mr. Hall's willingness to meet with them to discuss the problems and to advise them to contact Mr. Hall for such a meeting.

BIDS- ONE (1) 160 CFM HEAVY DUTY AIR COMPRESSOR

4. Consideration was given to bids received April 27, 1973 for (1) 160 CFM Heavy Duty Air Compressor for the Water Maintenance Department.

The City Manager read a recommendation from J. R. McMahan, Purchasing Agent, who recommended the low bid of $3,701.86 be awarded to Mitchell Distributing Company. Vice-Mayor Marshall questioned the advisability of purchasing a gasoline motor driven compressor over a diesel engine when the bid on the diesel engine was only approximately $365.00 more. It was his opinion that the deisel engine would be more efficient and cost less to maintain.

The City Manager was instructed to confer with Robert Brown, Water Maintenance Superintendent, to determine if he preferred the gasoline engine, if so, to find out his reasons and report back to Council at the next meeting.

4. Consideration was given to bids received April 27, 1973 for one (1) 160 CFM Heavy Duty Air Compressor for the Water Maintenance Department.

These bids were carried over from last weeks meeting, at which time Mayor Wood instructed the City Manager to confer with Robert Brown, Water Maintenance Superintendent and make a comparison of the gasoline engine and the diesel engine.

The City Manager read a memorandum from Robert Brown to J. R. McMahan which outlined the comparison of the two engines. The City Manager said that the savings in fuel, using the diesel engine, would make it worthwhile to accept the second low bid, with the bid price difference being $179.24.

Councilman Morris moved that the bid be awarded to Asheville Construction Company in the amount of $4,066.40. This motion was seconded by Vice-Mayor Marshall and carried unanimously.

QUESTIONS AND COMPLAINTS FROM AUDIENCE

Mrs. James Smith complained again about the Monteath auto storage yard located behind her house.

Mayor Wood advised Mrs. Smith that the Asheville Housing Authority's proposed amendment to the Urban Renewal Project calls for acquisition of the Monteath property, but the amendment has not been approved by the Department of Housing and Urban Development and until the acquisition takes place the storage yard is a permitted use and there was nothing that could be done at this time.

Mrs. Smith also complained that a tree on her property had blown down and she had called the Public Works Department five times to get them to pick up the limbs, but only part of them had been removed.

Mayor Wood asked the City Manager to look into the matter.

Mr. Carl Johnson spoke to Council regarding attracting small "pocket industries" to help people own their own homes and get jobs near their homes. He also asked Council to require trucks hauling garbage and other refuse to cover their trucks in a way that material would not fall off and become a road hazard.

Mr. Johnson also questioned Council on whether or not Thoms Cablevision, Inc. were meeting the requirements of the franchise. He said it was his understanding that Thoms Cablevision was to provide service to all residents within a certain period of time, but Hillcrest residents could not acquire this service.

Mayor Wood asked the City Manager to check with the City Attorney regarding the requirements of the franchise.

Mrs. Roy Rogers complained about the appearance of the property in the East Riverside Project.

Mrs. Lewis Dunlap complained of a leaking sewer line beside her house at 134 South Grove Street. Mr. J. E. Johnson, Chief Building Inspector, reported that his department had checked this complaint today and reported that the sewer line is on private property and the owners were notified to repair the line or vacate the premises by May 14, 1973.

Mr. Odell Irby of 141 Flint Street asked Council to act more quickly on complaints from the black communities.

Adjournment.

CITY MANAGER INTRODUCED STAFF MEMBERS

The City Manager introduced the members of his staff who were in attendance at the meeting.

WESTERN NORTH CAROLINA PILOTS' ASSOCIATION - REQUESTS

Mr. William E. Norwood, with the Western North Carolina Pilots' Association, read a prepared report, copies of which had been presented to Council, requesting approval of three different items. The report requested that approval be granted for the waiver of the boarding tax for the United Airlines sight seeing tours on May 26, that Council approve an airshow this year with their endorsement of an annual air show at the Asheville Airport, and approval be granted to the Western North Carolina Pilots' Association to operate the second Fixed Base Operation at the Asheville Airport.

Mr. J. T. Rice, also with the Western North Carolina Pilots' Association, commented that the May 26 sight seeing tour would be a local tourist flight and should be exempt from the boarding tax.

Mayor Wood told Mr. Norwood and Mr. Rice that he did not know if the present ordinance would allow the exemption of the boarding tax, if not then Council would have to consider amending the ordinance to allow for the exemption.

Mayor Wood instructed the City Manager to confer with Corporation Counsel Robert Robinson regarding the exemption of the boarding tax and to report back to Council.

Mr. Gary Taylor, Director of Aviation, told Council that he had met with the members of the Western North Carolina Pilots' Association and had suggested that an airshow not be scheduled until after the airport's new radar facility is installed, calibrated and commissioned. Mr. Taylor stated he did not know when this would be at this time.

Mr. Norwood stated the Western North Carolina Pilots' Association would have to give at least a 30 days notice to FAA before an airshow could be scheduled.

Councilman Hoyle moved for the approval of an airshow after the new radar facility is installed, calibrated and commissioned and to give the Western North Carolina Pilots' Association 30 days to schedule an airshow. This motion was seconded by Councilman Dailey and carried unanimously.

In the absence of a second to the motion, Councilman Morris moved to amend his motion for the Coca-Cola Bottling Company to provide these storage tanks within three years.

He also failed to receive a second to this motion.

After a lengthy discussion, Mayor Wood recommended that the Coca-Cola Bottling Company of Asheville contact the parent company's water engineers and arrange a meeting with the City Engineers to find a way to provide storage tanks or to find an alternate solution.

RESOLUTION NO. 73-46 - RESOLUTION AUTHORIZING THE MAYOR OF THE CITY OF ASHEVILLE TO EXECUTE CONTRACTS FOR CONSTRUCTION OF FEDERAL AVIATION ADMINISTRATION OFFICE AND SHOP BUILDING AT THE ASHEVILLE AIRPORT

4. Consideration was given to a resolution authorizing the Mayor of the City of Asheville to execute contracts for construction of Federal Aviation Administration Office and shop building at the Asheville Airport.

The Assistant City Manager explained that the FAA maintenance personnel were displaced from the tower due to the airport's new radar facility being placed in the tower.

Gary Taylor, Director of Aviation told Council that competitive bids had been received for the construction of the building, but after changes were made in the plans by the Federal Aviation Administration, we had to request second bids. Mr. Taylor gave the final low bids as follows:

Merchant Construction Company	$ 39,246.00
Rogers Plumbing and Heating Company	4,360.00
Asheville Heating and Cooling	2,883.00
Asheville Electric Company	4,684.00

Councilman Morris moved to accept the low bids and award the contracts to Merchant Construction Company in the amount of $39,246.00; Rogers Plumbing and Heating Company (plumbing) in the amount of $4,360.00; Asheville Heating and Cooling (heating and air conditioning) in the amount of $2,883.00: and Asheville Electric Company (electrical) in the amount of $4,684.00, for a total of $51,173.00 for the construction of the Federal Aviation Administration office and shop building at the Asheville Airport. This motion was seconded by Vice-Mayor Marshall and carried unanimously.

PUBLIC HEARING - AMENDING AND REVISING ORDINANCE NO. 322, THE ZONING ORDINANCE OF THE CITY OF ASHEVILLE

2. The public hearing relative to the adoption of an ordinance amending and revising Ordinance No. 322, as amended, the Zoning Ordinance of the City of Asheville which was continued from the April 19th meeting was reconvened at 3:02 o'clock p. m.

APPLICATION FOR WATER SERVICE FOR COCA-COLA BOTTLING COMPANY

3. The Assistant City Manager read a letter from William C. Moore, Attorney for the Coca-Cola Bottling Company and J. W. Gilstrap, Assistant to the President of the Coca-Cola Bottling Company requesting water and sewer service to serve the new proposed Coca-Cola production facility to be located on Haywood Road in Arden, North Carolina. He also read a memorandum from R. R. Burgy, Water Department Engineer, which recommended that water service for the proposed facility be limited to 880 gpm and on this basis a 10-inch water line may be installed. However, this recommendation may cause the city to make drastic changes in the plans for future water service to this area.

Mr. Paul Warlick, President of the Asheville Coca-Cola Bottling Company and Mr. G. Bennett Warren, productions systems manager for the Asheville Coca-Cola Bottling Company spoke to Council in length relative to the water service needs for the proposed facility.

After being questioned by Council of the possibility of installing storage tanks on their property for the use of water or relocating to an area that could possibly service their needs better, Mr. Warlick stated that they could possibly build storage tanks but they would need time to do this, and time is of essence at this point. He said that they had not been able to find another location for the facility that could serve them as well as the proposed location.

Councilman Morris made a motion to approve the application for water service if the Coca-Cola Bottling Company would agree to build a storage tank that would provide for a three (3) day supply in order that the City could supply water seven days a week 24 hours a day without making such a heavy demand at peak hours.

PETITION - CEDAR HILL AND DEAVERVIEW SECTION - WATER PROBLEMS

Mr. J. W. Haynes and a group of residents from the Cedar Hill and Deaverview Road section presented a petition to Council asking for improved water service or construction of a reservoir on a mountain known as Viewmont Acres, formerly Deaverview Mountain. Mr. J. W. Haynes and G. W. Smith, owners of the mountain said they would agree to donate the property and right-of-way for construction of a new reservoir. The residents stated they were out of water the majority of the time.

The Assistant City Manager told the group that the City is in the process of installing a pump on Patton Avenue which should give some temporary relief.

Mayor Wood stated that he hopes to have money available in the 1973-74 budget to put a reservoir in the area and thanked Mr. Haynes and Mr. Smith for their offer to donate land for this purpose.

PROCLAMATION - SENIOR CITIZENS DAY - MAY 21

Mayor Wood proclaimed May 21, 1973 as Senior Citizens Day.

COUNCIL RECESSED FOR FIVE MINUTES

At this time Mayor Wood recessed the Council meeting for a five minute break.

RESOLUTION NO. 73-49 - RESOLUTION APPROVING AMENDMENT TO THIRD ACTION YEAR PLAN OF THE ASHEVILLE MODEL CITIES PROGRAM

Mayor Wood commented that the City Council had studied the Model Cities projects in detail over the past few weeks and that at this time the Council would review the projects one by one and make decisions regarding funding. Mayor Wood also stated that after members of the City Council had asked questions and commented about a project that a maximum of five minutes would be given for comments from members of the audience.

1. IMPROVED MASS TRANSIT

The Model Cities Commission had recommended no funding for this project and a phase-out date of June 30, 1973. Mayor Wood stated that the residents had ranked this project 5th in priority and it appeared that the continued availability of tickets and the additional route service was obviously needed. He therefore suggested adjusting the budget to increase the Commission's recommendation by $50,000, to be used as follows:

1) to provide a subsidy of $6.00 per hour 12 hours a day, 6 days a week for 308 days = $22,176.00; and
2) 111,296 bus tickets at 25¢ each = $27,824.00

This funding would represent a 50% reduction in cost of the subsidy which was approved in the original Third Action Year and a 3.57 reduction in the costs of bus tickets formerly approved.

Councilman Morris moved to adjust the budget to increase the Model Cities Commission recommendation by $50,000 to be used as the Mayor suggested. The motion was seconded by Councilman Dailey and carried unanimously.

RESOLUTION NO. 73-48 - RESOLUTION AUTHORIZING MAYOR TO EXECUTE RIGHT OF WAY ENCROACHMENT AGREEMENT WITH THE NORTH CAROLINA STATE HIGHWAY COMMISSION FOR A WATER LINE ALONG NORTH SIDE OF U. S. 70 BETWEEN MOFFIT AND BRIGGS ROADS, SWANNANOA TOWNSHIP, BUNCOMBE COUNTY.

6. Consideration was given to a resolution authorizing the Mayor to execute right of way encroachment agreement with the North Carolina State Highway Commission for a water line along north side of U. S. 70 between Moffit and Briggs Roads, Swannanoa Township, Buncombe County.

The Assistant City Manager read the resolution.

Upon motion of Councilman Colton, seconded by Councilman Hoyle, Resolution No. 73-48 was unanimously adopted.
